

**Christopher Williams**  
**Local Businessman**

I am running for Mayor because I believe in the people of Lemon Grove and its potential, but I am deeply worried about the development and well being of our city. I do not accept for one second that four more years of the status quo can solve any of my concerns, and I don't think most Lemon Grove residents trust that either.

As a successful businessman, father, and actionist, I am uniquely qualified to identify and address Lemon Grove's working-class families and business owners who support city hall with their taxes. I believe fiscal responsibility is non-negotiable. Our budget must be balanced, responsive, and transparent. I will not support any tax increases; taxpayers won't need to open up their wallets, we as leaders need to open our minds to new possibilities.

I will focus on smart goals. Specific, Meaningful, Action-Oriented, Reasonable, and Time-Oriented business and residential development, safe and clean streets, and improving Lemon Grove residents' quality of life. As the founding member of the Lemon Grove Business Improvement Group, the Lemon Grove Improvement Council, and former LGLL coach. I have proven my motto of less talk and more action.
