2. 2015 City Council Priorities

Graham Mitchell reported that on February 24, 2015, the City Council held a Strategic Planning Retreat, facilitated by Peter B. Stark. Prior to facilitating the retreat, Mr. Stark met individually with Councilmembers and department directors to gauge concerns and interests regarding City Council priorities for the upcoming year. The purpose of the February 24th retreat was to begin a dialogue on common visions shared by City leaders and to identify priorities that garnered consensus.

The City Council discussed the following priorities and tasks for the upcoming year:

Economic Development

- Continue working with the East County Chamber of Commerce and the East County Economic Development Council on business support and attraction;

- Support Lemon Grove businesses and property owners in the formation of an assessment district to provide enhanced services (security, cleaning, marketing);

- Identify niche business types that could be attracted to the heavy commercial/industrial zones.

City Appearance

- Develop and implement a plan to address graffiti more effectively;

- Develop and implement a plan to address litter;

- Conduct City Council discussion regarding potential code enforcement target issues in commercial areas;

- Conduct City Council discussion regarding design standard in commercial areas.

Infrastructure

- Complete existing capital projects;

- Conduct City Council discussion regarding sidewalk incentive program;

- Enhance appearance of the City's Capital Improvement Program.

Public Safety

- Conduct City Council discussion regarding "deemed approved" ordinance, "single serve" policies, and "crime prevention through environmental design" policies;

- Presentation to the City Council from the Sheriff's Department regarding body worn cameras, license plate reader program, and the facial recognition program;

- Promote Crime Free Multi-Housing Program;

- Develop a program and strategies to increase the perception of safety in the City.

General Plan

Provide a City Council presentation regarding the General Plan update process, which will include the required update elements, critical steps, a cost breakdown, and funding opportunities;

Establish a General Plan Advisory Group with Planning Commissioners and other appointees.

Recreational Opportunities

Establish a Focus Group to explore a potential Recreation Council;

Consider a revised Joint Use Agreement between the School District for public use of fields and courts behind the Recreation Center during non-school hours;

Continue to explore recreation partners.

Mr. Mitchell stated that he will bring back a workplan for the upcoming year.

Public Speaker(s)

There were no requests from the public to speak.

3. Rejection of Bids for Sewer CIP Upsizing Project

Tamara O'Neal stated that in 2013, a Capital Improvement Program (CIP) Update was presented, which included the need to create a new project to rehabilitate sanitary sewer mains, including replacement, upsizing and repairs. On January 22, bid documents for the project (Contract No. 2015-02) were advertised in the East County Californian, online at eBidboard, and the City's website.

The engineer's estimate for this project was \$1,215,830. The low bid was submitted by MJC Construction Corp. for \$1,018,006.50. After staff reviewed the low bid, it was determined that the required reference information was incomplete and that not all projects referenced were within the three-year time frame stipulated in the specifications. Review of the second lowest bid revealed a similar irregularity with respect to the referenced projects being completed outside of the required three-year time frame.

Due to the large dollar amount between the two lowest bidders and the third bidder, staff recommends that all bids received at the February 25 bid opening be rejected, and that the project be re-advertised allowing projects that were completed within the last five years to be submitted for reference.

The Municipal Code and the bid document allows the District to reject all bids and staff believes that this measure will result in a significant savings to the District.

Public Speaker(s)

There were no requests from the public to speak.

LEMON GROVE CITY COUNCIL STAFF REPORT

Item No. 2

Mtg. Date April 21, 2015

Item Title: **Development Services**

Staff Contact: Carol Dick, Development Services Director

Discussion:

During a recent City Council meeting, several citizens spoke about an existing beekeeping activity and their positions regarding that activity. The activity is a current code enforcement case and was brought to the attention of the City Council during the public comment item. The property owner with the bee hives asked that City Council consider implementation of the current provisions and the neighbor asked that the hives be removed because she has small children visiting her home.

City Council directed staff to prepare an agenda item that would allow the City Council to discuss potential guidelines for beekeeping activities in the City. The following information introduces existing provisions in the Lemon Grove Municipal Code, other regional programs, and current trends for City Council discussion. Staff recommends that City Council consider the information presented in the staff report and provide feedback.

Beekeeping

Beekeeping can be a commercial business or a backyard hobby and is commonly referred to as an apiary. There is uniform belief that bees are critical to a successful ecosystem and to California agriculture. This staff report does not provide a discussion on the debate of whether backyard hobbyists are good for the bee population, but serves to identify what concerns should be addressed with the keeping of bees in a residential setting. The staff report does not consider large beekeeping operations that may be the sole use of a commercial site.

Residents set up beekeeping as a hobby for several reasons; some of those are to provide honey for friends and family as well as feeling that they are contributing to the overall health of the environment.

Safety and liability of beekeeping is a concern identified by insurance companies who advise homeowners of what needs to be considered with the hobby. Some of these concerns are noted below:

- Choose where to place bee hives. Make sure it is a safe distance away from other people. Do not place it in public view.
- Use appropriate signage to inform of potential danger of bees present.
- Do not keep a large number of bees on a small property.
- Be extremely careful when moving bees from one location to another. Consider doing this during evening hours. Use proper precautions to protect bystanders.
- Replace any aggressive bees with more docile ones.
- If bees start to frequent neighbors pool or hot tub, provide a water source closer to the hive.

Attachment A

Ordinances of neighboring jurisdictions address many of these concerns, while others do not have any regulations regarding beekeeping or apiaries. The County and State have regulations for the protection of bees to preserve California's agricultural economy.

Municipal Code

The Lemon Grove Municipal Code contains provisions in the Animal Keeping Sections regarding beekeeping (**Attachment B**). The records do not show that any beekeeping permit have ever been issued and staff has concluded that the reason behind this is that the City Council has not adopted, by Resolution, the fee noted in the following section.

18.16.060 Exotic Animals.B.1

The beekeeper shall apply for a beekeeping permit. The permit application shall be filed on a form available in the office of the planning department and shall be accompanied with a nonrefundable fee, as established by resolution of the city council.

The current provisions require neighborhood noticing of a beekeeping permit request and specific standards. The permit is issued at a staff level and upon protest, can be denied provided a written statement is submitted to the City from a medical practitioner licensed by the State of California documenting the existence of severe bee allergy.

The current provisions also reference Section 6.04.430 and Section 6.12 (repealed November 19, 1990) of the Lemon Grove Municipal Code. Section 6.04.430 (**Attachment C**) includes standards and procedures to abate nuisance animals.

If City Council directs staff to implement the current code, staff recommends that a Zoning Clearance Application and fee be utilized to process the application and to recover all costs associated with the application including noticing. Staff also recommends that the requirement for a medical statement be omitted from the provisions (shown italicized in **Attachment B**) as it may be difficult to ensure medical validity.

City staff recalls less than six requests in the past decade for beekeeping activities and less than that in code enforcement activities related to unapproved beekeeping activities.

Other Standards in the Region

Out of the nineteen jurisdictions, four agencies (including Lemon Grove) include existing standards for beekeeping activities in their regulations. National City prohibits beekeeping by ordinance and the City of San Diego established standards. Although the City of San Diego does not require permits, the hives must be registered with the County of San Diego Department of Agriculture, Weights, and Measures.

San Diego regulations establish the appropriate zones, allowable bee species (*Apis mellifera* commonly referred to as a Honey Bee), size and locational requirements, ownership standards, signage, fire safety and fire-fighting materials. The brochure issued by the City of San Diego states that the only type of bee allowed is a docile species and further states:

"The docile honeybees that are permitted by this ordinance are not aggressive. Beekeeping when done properly poses very limited risks to surrounding properties or property owners."

Chula Vista Municipal Code specifies that beekeeping is unlawful unless 600 feet from any residential structure. Exceptions to the requirement is made for scientific or research purposes.

The County of San Diego is currently undergoing environmental review of an amendment to the Bee Ordinance to implement a three "tiered" approach to setback distances for placement of beehives on public and private property in proximity to dwellings, property lines, roadways and

Attachment A

sensitive sites (small children, elderly, and confined animals and others who might be physically challenged). The tiers are based on the number of hives and requires that if 2 hives are on a site, those hives must be located 25 feet from the road, 25 feet from a property line and 35 feet from a neighboring dwelling. In addition to the clearance requirements, the proposed ordinance includes registration of beekeepers, Best Management Practices, education and outreach. The ordinance requires that the beekeeper monitor the hive for Africanization, installation of a 6-foot high barrier to direct flights, positioning hive entries away from paths and neighboring dwellings, adequate water supplies, and fire prevention provisions (related to smoker equipment). The attached Mitigated Negative Declaration (**Attachment D**) summarizes the major provisions of the proposed ordinance.

Current County regulations require all beekeepers, small and large, to keep hives 100 feet from roads and 600 feet from homes. The County of San Diego is undergoing revisions because of concerns expressed by the San Diego County Beekeeping Society who claim County regulations make it difficult for beekeepers to prosper (San Diego County News Center).

Conclusion:

Staff recommends that the City Council consider the information presented in the staff report and provide feedback.

Attachment B

18.16.060 Exotic animals.

A. The keeping of animals considered to be members of a rare and endangered species, exotic or wild animals, including dangerous or poisonous reptiles, shall not be permitted within the city, except as provided in Section 6.04.430 of the Lemon Grove Municipal Code.

B. Beehives may be kept within the residential low and low/medium zoning districts subject to the following:

1. The beekeeper shall apply for a beekeeping permit. The permit application shall be filed on a form available in the office of the planning department and shall be accompanied with a nonrefundable fee, as established by resolution of the city council

2. Prior to the issuance of a beekeeping permit, the city shall send written notification to the owners and residents of all properties abutting the lot where the bees are to be kept.

a. The owners and residents of the abutting properties may, within ten days of the date of the notice, file with the planning department a written protest against the issuance of a beekeeping permit.

b. *The only acceptable grounds for protest shall be that a resident of a property which abuts the site of the proposed beekeeping suffers from severe allergic reaction for bee stings. Such allergy and its severity shall be documented by a written statement from a medical practitioner licensed by the state of California.*

c. *If the city receives a protest pursuant to this section which included required documentation, no beekeeping permit shall be issued.*

3. Not more than two beehives shall be permitted on a lot or building site with an area of at least ten thousand square feet. Two additional beehives shall be permitted on a lot with an area of at least fifteen thousand square feet. No more than four beehives shall be permitted on any lot or building site.

4. *The keeping of bees shall be conducted in accordance with this section and in accordance to the provisions of Chapter 6.12 of the Lemon Grove Municipal Code.*

5. Beehives shall be placed at least one hundred feet from the exterior line of the traveled way of any public streets, at least twenty-five feet from the exterior line of any private access easement, at least twenty-five feet from any side or rear lot line, and at least one hundred feet from any dwelling other than that occupied by the owner of the bees.

6. Beekeepers shall keep sufficient open water available near the beehives during hot and dry weather.

7. Beehives shall be well maintained at all times.

6.04.430 Public nuisance.

A. General Provisions. The introduction, possession or maintenance of any animal, or the allowing of any animal to be in contravention of this chapter is, in addition to being a misdemeanor, declared to be a public nuisance. The city or authorized agency, health officer and peace officer may summarily abate any such public nuisance independently of any criminal prosecution or the results thereof by any means reasonably necessary including but not limited to the destruction of the animal or animals involved, or by the imposition of specific reasonable conditions and restrictions for the maintenance of the animal(s). The owner shall reimburse the city or authorized agency for all costs incurred in verifying compliance and enforcing the provisions of this section.

B. Notification of Right to Hearing. At least five working days prior to the impoundment and/or abatement, the owner or custodian of record shall be notified of their right to a hearing to determine whether grounds exist for such impoundment and/or abatement. If the owner or custodian of record requests a hearing prior to impoundment and/or abatement, no impoundment and/or abatement shall take place until the conclusion of the hearing except as noted in subsection C of this section.

C. Immediate Impoundment. When, in the opinion of the city or authorized agency, immediate impoundment is necessary for the preservation of animal or public health, safety or welfare, or if the animal has been impounded under other provisions of this code or state law, the pre-impoundment hearing shall be waived. However, the owner or custodian of record shall be given a notice allowing five working days to request an abatement hearing. If requested a hearing shall be held within five days of the request, and the animal shall not be disposed of prior to the conclusion of the hearing. If, after five working days, no request for a hearing is received from the owner or custodian of record, the animal in question shall be disposed of under applicable provisions of the law. (Ord. 245 § 9, 1995; Ord. 227 § 5, 1994; Ord. 175, 1990).

MITIGATED NEGATIVE DECLARATION

April 2, 2015

Project Name: San Diego County Bee Ordinance Amendment

Project Number(s): County Code of Regulatory Ordinances Title 6, Division 2, Chapter 9

**This Document is Considered Draft Until it is Adopted by the Appropriate
County of San Diego Decision-Making Body.**

This Mitigated Negative Declaration is comprised of this form along with the
Environmental Initial Study that includes the following:

- a. Initial Study Form
 - b. Environmental Analysis Form and attached extended studies for biological resources, historical resources, and a stormwater management plan.
1. California Environmental Quality Act Negative Declaration Findings:

Find, that this Mitigated Negative Declaration reflects the decision-making body's independent judgment and analysis, and; that the decision-making body has reviewed and considered the information contained in this Mitigated Negative Declaration and the comments received during the public review period, and; on the basis of the whole record before the decision-making body (including this Mitigated Negative Declaration) that there is no substantial evidence that the project will have a significant effect on the environment.
 2. Required Mitigation Measures:

Refer to the attached Environmental Initial Study for the rationale for requiring the following measures:

A. Hazards/Public Safety

 - a. The effectiveness of the proposed ordinance changes depends on four components: registration of beekeepers, the implementation of Best Management Practices (BMPs), outreach/education to the public and beekeepers, and compliance with the revised ordinance. With the incorporation

Attachment D

San Diego County Bee Ordinance Amendment

Page 2 of 4*

of these mitigation measures, the impacts to public safety will be less than significant because beekeepers will be educated on how to properly manage their hives to prevent Africanization of those hives; and the County will conduct compliance inspections and enforcement actions to ensure compliance with the ordinance requirements. These mitigation measures are:

Registration: All beekeepers are required to register each year to allow AWM the knowledge of managed beehive locations. The registration process will include newly registered beekeepers taking an online course on how to effectively manage bees and preclude Africanized bees. The beekeepers will be required to complete and sign self-assessment, Best Management Practice (BMP) Checklist, yearly upon registration.

Online Course: Completion of the online course is required for newly registered beekeepers. The course covers various aspects of safe beekeeping, serves as an educational resource for beekeepers, and promotes understanding and compliance.

Re-Queen: All beekeepers will be required to check their hive monthly for signs of Africanization. When Africanization possibility is detected, the beekeepers are required to re-queen or abate the bee hive immediately to discontinue the production of Africanized offspring.

6-foot Flyover Barrier: All beekeepers in residential areas will be required to have a 6-foot high barrier placed on all sides of the hives to direct the bee flight path up and out. Barrier must be a minimum of 6 feet tall and can be manmade such as a fence, or natural such as a dense hedge. Barrier shall closely surround the beehives leaving sufficient space to properly maintain the beehives. Barriers protect public safety by forcing the bees to fly up and over the barrier height to prevent contact with people or animals.

Hive Entry Location: All beekeepers in residential areas will be required to place the openings of the beehives away from any paths used by people and animals, and away from any neighboring dwelling so that the bee flight path does not come in contact with people or animals.

Water Supply: All beekeepers will be required to provide a water supply specifically for bee use. Water is one of the main provisions bees must have to remain healthy. The water supply must be fresh, adequate, and available to bees at all times. The water supply must be equipped with floats or landing areas to prevent bees from drowning. This allows the bees to avoid visiting unintentional water supplies such as neighbor's pet water bowls and swimming pools.

Regular Hive Check by Beekeepers: All beekeepers will be required to open and check their hives at least once a month, looking for behavioral signs of Africanization such as defensiveness, territoriality, agitation, or unpredictability. Frequent health checks allow the beekeepers to notice when the hives may be

Attachment D

*Mitigated Negative Declaration

taken over by bee pests, diseases, or overly-defensive bees and to take corrective measures in a timely manner. The beekeepers will also be required to notice when a hive is growing too large and swarming may likely occur. If the hive has grown too large, the beekeeper must split the hive or provide additional box space for the colony to grow.

Yearly BMP Checklist: The beekeepers will be required to submit a signed BMP self-assessment checklist as part of their annual registration with AWM. The checklist serves as a reminder list of the required BMPs and ordinance requirements that beekeepers must follow in order to be in compliance.

Fire Prevention Equipment: All beekeepers must prevent their smokers from starting a fire. Fire prevention consists of a secure secondary container for smoker transport, a reasonable fire break and firefighting materials. A fire break is an area cleared of weeds, brush, or flammable materials where the hive is located. Firefighting materials need to be immediately available and consist of a shovel and a fire extinguisher or operable water supply.

Identification Information on Hive: Each hive must display the beekeeper's name and telephone number in clearly visible letters at least 1" tall. Contact information is important to show ownership, prevent theft and serves to facilitate communication if there is a question or complaint about the hives.

Sensitive Sites as Determined by AWM: Sensitive sites will be determined and appropriate setbacks implemented to provide sufficient distance between managed beehives and the possible sensitive site locations. A sensitive site is a location where people or animals, such as the elderly, small children, or confined animals inhabit or frequent, that is more at risk if a stinging incident was to occur. All schools, playgrounds, picnic areas, outdoor sports facilities, daycare centers, kennels, horse boarding facilities, senior care facilities, medical treatment facilities, and hospitals that are known to the County will automatically be considered as designated sensitive sites. Property operators, owners, or residents with documented hyper-sensitivity to bee stings can request their locations to be designated as sensitive sites. AWM will consider designation of sensitive site status if a business or resident applies to AWM for their location to be designated as a sensitive site. Conversely, property operators and owners could remove their sensitive site designations by written notification to AWM.

Outreach and Education Program: A strategic bee outreach program will be implemented by AWM that involves beekeepers, the public and interested parties. The program will be a collaborative effort between the County of San Diego Farm and Home Advisor (FHA), SDBS, commercial beekeepers and AWM to increase hobbyist beekeepers' awareness and expertise on the importance of BMP implementation and compliance with ordinance requirements. Other interested parties may include pest control professionals, land managers, growers, emergency first-responders, and educators. The program includes the development of a website, brochures, factsheets, frequently asked questions,

Attachment D

bee hotline post card, workshops, training demonstrations, video, online training and BMP checklist.

Compliance Monitoring: To promote compliance, AWM proposes to conduct compliance inspections based on beekeepers' requests, complaints, and causes, such as the beehive proximity to sensitive sites and AWM's awareness of possible violations, to ensure compliance with the ordinance requirements. AWM will use available education, outreach, and compliance tools to ensure public safety. Possible compliance tools include San Diego County's Administrative Citation, Administrative Civil Penalties and Public Nuisance Abatement Processes. SDBS has offered to collaborate with AWM and beekeepers when possible to ensure compliance by providing technical assistance to hobbyist beekeepers who are out of compliance.

Bee Hotline: A Bee Hotline has been set up where the public can call if they have questions or comments about bees BEE/INSECT HOTLINE 1-800-200-2337 (BEES). This Hotline is available during regular business hours to answer non-emergency public concerns about managed and feral bees. The Hotline directs the public to the correct jurisdiction and/or forwards managed bee complaints to AWM to be addressed.

Adaptive Management: AWM will implement a two calendar year adaptive management program to evaluate the success of the bee ordinance amendments. The adaptive management program will consist of an active evaluation of program success by collecting information on the number of registrants, complaints, and compliance actions during the two calendar year period after the ordinance changes are implemented. Improvements and changes may be made on aspects of the ordinance to meet safety goals.

A vote was held after a thorough discussion and it was unanimously decided to move forward with the dissolution process.

The staff report (**Attachment A**) describes in greater detail the March 26th Board meeting, liability coverage for the City in its new model, and future excess liability coverage options.

Fiscal Impact:

In Fiscal Year 2015/16 there will be a nominal decrease to the City's annual premium. For future years there may be savings and return of equity with the potential dissolution of SANDPIPA. |

LEMON GROVE CITY COUNCIL STAFF REPORT

Item No. 4

Mtg. Date April 21, 2015

Item Title: San Diego Pooled Insurance Pooled Authority

Staff Contact: Mike James, Public Works Director

Background:

Since April 1, 1986, the City of Lemon Grove entered into a joint powers agreement with various other cities, entitled "San Diego County Cities Joint powers Agreement creating the San Diego Pooled Insurance Protection Authority (SANDPIPA) for Municipal Entities," to provide for and administer a risk management and insurance program.

Discussion:

Since 2014, in light of the General Manager's retirement announcement, the SANDPIPA Board of Directors (Board) has been discussing options for moving forward. Options may include backfilling the General Manager position, implementing a different management process, or dissolving the organization and each city will find a different risk management and insurance program. Each of the options were previously presented and discussed at the City Council meetings on February 17th and March 17th.

On March 26, 2015, the SANDPIPA Board held a meeting to come to a final decision to continue with the SANDPIPA model or to move forward with the dissolution process with a planned run-off of all outstanding liability while also encouraging each individual member city to join the California State Association of Counties Excess Insurance Authority (CSAC) for excess liability coverage for a minimum one-year period. After receiving a presentation from the General Manager and the consulting team, the Board voted unanimously (12-0) to move forward with the dissolution process.

In light of the SANDPIPA's Board decision, staff recommends that the City rescind its notice of intent to withdraw from SANDPIPA and enter into agreement CSAC as the City's excess liability insurance coverage provider. The change in excess liability insurance coverage does not negatively impact the level of service or coverage that the City will have in FY 2015/16. The City will continue to receive the same coverage (e.g. general liability, crime, cyber, pollution, and property). The only noticeable change that will occur is the City's general liability self-insured retention which will reduce from \$125,000 to \$100,000. Staff anticipates that in FY 2015/16 there will be a nominal decrease in the City's annual premium. Furthermore, the City will likely begin to receive a portion of its share of equity in the form of dividends during the dissolution process. It is also important to note that the SANDPIPA Board Council recommended two amendments to the SANDPIPA by-laws that were created to protect each member's right to its share of equity. Those changes are shown on page 21 of **Attachment B – Exhibit 1**.

In looking forward to FY 2016/17 and beyond, staff recommends moving forward with soliciting proposals to provide general liability and workers compensation excess insurance coverage as well as third party administrative services. Based on the responses received, staff will return to the City Council with a recommendation for approval that may or may not include continuing with CSAC as its excess insurance liability coverage provider beyond the initial one-year term.

Conclusion:

Staff recommends that the City Council adopt a resolution (**Attachment B**) providing its written authorization to the dissolution of the San Diego Pooled Insurance Program Authority. |

ARTICLE 21

NEW MEMBERS

The Authority shall allow entry into its insurance program by new members only upon approval by the Board, or by the Executive Committee if specifically delegated such authority by resolution of the Board, which resolution may impose such conditions or limitations upon such authority of the Executive Committee as the Board deems appropriate. Cities entering under this article shall be required to pay their share of the organizational expenses, as determined by the Board, including expenses necessary to analyze their loss data and determine their premiums.

Attachment B – Exhibit 1

ARTICLE 22 WITHDRAWAL

After an initial one-year, noncancellable commitment to the Memorandum of Insurance, a city may withdraw, provided it has given the Authority a six-month written notice of its intent to withdraw from this agreement and the Memorandum of Insurance.

ARTICLE 23 CANCELLATION

Notwithstanding the provisions of Article 22, the Authority shall have the right to cancel, for good cause, any city's participation in the Authority and Memorandum of Insurance upon a two-thirds vote of the entire Board of Directors, provided that a reasonable time shall be afforded, in the discretion of the Board of Directors, to place coverage elsewhere.

ARTICLE 24 EFFECT OF WITHDRAWAL

- A. The withdrawal of any city from this agreement shall not terminate the same, and a city, by withdrawing, shall not be entitled to payment or return of any earned premium, consideration, or property paid or donated by the city to the Authority, or to any distribution of assets, except as provided in Article 25(c).
- B. The withdrawal or cancellation of any city after the effective date of the Memorandum of Insurance or other elements of the insurance program shall not terminate its responsibility to contribute its share of premium or funds to the insurance program of the Authority, until all claims or other unpaid liabilities covering the period the city was a participant have been finally resolved and a determination of the final amount of payments due by the city or credits to the city for such period has been made by the Executive Committee. In connection with this determination, the Executive Committee may exercise similar powers to those provided for in Article 25(b) of this agreement.

ARTICLE 25 TERMINATION AND DISTRIBUTION

- A. This agreement may be terminated any time during the first year by the written consent of all cities and thereafter by the written consent of three-fourths of the cities; provided, however, that this agreement and the Authority shall continue to exist for the purpose of disposing of all claims, distribution of dividends, distribution of assets, and all other functions necessary to wind up the affairs of the authority. Withdrawn or cancelled members are entitled to participate in dividend distributions after accounting for their Board determined share of administrative expenses.
- B. ~~The Executive Committee~~ Board of Directors is vested with all powers of the Authority for the purpose of winding up and dissolving the business affairs of the Authority. These powers shall include the power to require cities, including those which were signatory

hereto at the time a claim arose or was incurred, to pay their share of any additional assessment, in accordance with loss allocation formulas for final disposition of all claims and losses covered by this agreement. A city's share of such assessment shall be determined on the same basis as that provided for assessments in Article 15(c) and (d) of this agreement.

- C. Upon termination of this agreement, all assets of the Authority shall be distributed only among the parties that have been signatories hereto, including any of the cities which previously withdrew pursuant to Article 22 or were canceled pursuant to Article 23 of this agreement, in accordance with and proportionate to their cash contributions (including premium payments and property at market value when received) made during the term of this agreement. The Executive Committee shall determine such distribution within six months after disposal of the last pending claim or loss covered by this agreement.
- D. In the absence of an Executive Committee, the Risk Manager shall exercise all powers and authority under this Article. The decision of the Executive Committee or Risk Manager under this article shall be final.

ARTICLE 26 PROVISION FOR BYLAWS AND PLAN DOCUMENT

As soon as practicable after the first meeting of the Board of Directors, the Board shall cause to be developed and shall adopt Authority bylaws and a plan document to govern the day-to-day operations of the Authority. Each city shall receive a copy of any bylaws, plan document, or other document developed under this article.

ARTICLE 27 NOTICES

Notices to cities hereunder shall be sufficient if delivered to the clerk of the respective city.

ARTICLE 28 ENFORCEMENT

The Authority shall have the right to enforce this agreement. If any suit or other proceeding or arbitration is brought by the Authority, or any member, to enforce this agreement, the prevailing party shall be entitled to recover costs and expenses, including reasonable attorneys' fees. No court proceedings shall be initiated by the Authority, affected member, or withdrawn member agency, other than for the collection or return of assessments or premiums. Other disputes shall be resolved as provided in the bylaws.

Attachment B – Exhibit 1

ARTICLE 29 INVALIDITY

Should any portion, term, condition, or provision of this agreement be determined by a court of competent jurisdiction to be illegal and in conflict with any law of the State of California, or be otherwise rendered unenforceable or ineffectual, the validity of the remaining portion, terms, conditions, and provisions shall not be affected thereby.

ARTICLE 30 TORT LIABILITY

Section 895.2 of the Government Code imposes certain tort liability jointly upon public entities solely by reason of such entities being parties to an agreement as defined in Section 895 of said Code. Therefore, the parties hereto, as between themselves pursuant to the authorization contained in Sections 895.4 and 895.6 of the Government Code, each assumes the full liability imposed upon it or any of its officers, agents or employees by law for injury caused by a negligent or wrongful act or omission occurring in the performance of the Agreement, to the same extent that such liability would be imposed in the absence of Section 895.2 of said Code. To achieve this purpose each party indemnifies and hold harmless the other party for any loss, cost or expense that may be imposed upon such other party solely by virtue of Section 895.2 of the Government Code.

Upon exhaustion of aggregate policy limits, as described in Article 15, under the Memorandum of Insurance (and excess insurance, if obtained) for any insurance year, no city or party shall be assessed or held in any way responsible for the claims or losses of any other city which are excess of such limits; and any expenses that may reasonably be incurred as a result of such excess claims. Accordingly, this agreement does not affect city claims processing or payment after exhaustion of aggregate policy limits; however, such claims management procedures may be considered by the Authority in evaluating the conformance of city risk management practices with Authority standards.

ARTICLE 31 CLAIMS, LITIGATION, OR JUDGMENTS AGAINST THE AUTHORITY

- A. Defense of Claims. As to any claim or action against the Authority which is based on or arises out of an occurrence involving an officer or employee of the Authority during the course and in the scope of such duties, who is also an officer or employee of a city, such claim or action against the Authority will be defended by the Authority to the extent required by law. Such claims or actions shall not be considered claims or actions against such city solely as a result of employment by the Authority.
- B. Claims and Judgment Against the Authority. Claims and judgments against the Authority shall be paid from, or charged to, the appropriate coverages or self-insured funds the Authority has established against such claims, judgments or losses. Such amounts shall be paid from the Authority's own coverage or self-insured funds.

Attachment B – Exhibit 1

- C. Arbitration. Any differences, claims or matters in dispute arising between or among members shall, if such differences arise out of this agreement or the bylaws, be submitted by such members to arbitration by the American Arbitration Association or its successor under the pertinent provisions of the laws of the State of California relating to arbitration, except as provided below. The decision of the arbitrator(s) may be entered as a judgment in any court of the State of California or elsewhere. Costs of arbitration, including reasonable attorneys' fees, shall be recoverable in arbitration.
- D. Authority Representation Conflicts. Any differences, claims or matters in dispute arising between or among members shall, if such differences do not arise out of this agreement or the bylaws, be handled as follows:
1. After being notified in writing that one member agency has filed a formal claim against another in accordance with provisions of the Government Code, the Authority can no longer act on behalf of either member insofar as the case giving rise to the claim is concerned if the claim involves a risk covered by the Memorandum of Insurance, or other risk-sharing insurance policy of the Authority in which each of the involved members is a participating member.
 2. Conversely, the Authority may continue to act on behalf of a participating member, even after receipt of written notice of a formal claim filed by one member agency against another, provided the claim only involves a risk-sharing insurance policy of the Authority in which only one of the involved member agencies is participating.

In any case falling within the boundaries of (1) or (2) above, the Authority may, in its discretion, act on behalf of one or all involved members, provided that the Authority first obtains the written consent of each involved member; provided that the failure of the Authority to act on behalf of any member under this section shall not affect the Authority's obligation to provide coverage, including coverage of legal defense costs under the Memorandum of Insurance or other risk-sharing insurance of the Authority.

ARTICLE 32 PROHIBITION AGAINST ASSIGNMENT

No city may assign any right, claim, or interest it may have under this agreement, and no creditor, assignee or third-party beneficiary of any city shall have any right, claim, or title to any part, interest, fund, premium, or asset of the Authority.

ARTICLE 33 AGREEMENT COMPLETE
