CITY OF LEMON GROVE NEWS

IT'S LIKE PAINTING THE SURFACE OF THE MOON

For many, the Lemon is a work of art, but for tourists, it presents the best opportunity for a selfie in the, "Best Climate on Earth". The public sculpture simply known as the Lemon has become a must see item in San Diego County and serves as a famous must see symbol in the City of Lemon Grove.

The sizable fruit was originally built as a parade float on July 4, 1928 and later plastered before being placed upon an engraved concrete base reading, "The Best Climate on Earth".

Recently, the City's most sought-after landmark, the infamous Lemon, became the target for vandalism prompting city officials to contact the original restoration artist and Lemon Grove resident, Mr. Steven Garcia. Mr. Garcia has lived in Lemon Grove since 1976 and has been active in the community for over 30 years as an artist and professional stuntman.

A skilled artist, Mr. Garcia approaches the project with a passion for painting and restoration. He relates, "Painting the Lemon is kind of like trying to paint the surface of the moon", as he skillfully applies a primer followed by the application of a rough surface painting tape to cover the lettering. He finishes the project with a coat of the iconic yellow that residents have come to know and love.
