CITY OF LEMON GROVE FIRST A DESCRIPTION OF A RESERVED OF THE PROPERTY OF THE PROPER

CONSOLIDATED OPERATING & CAPITAL BUDGET

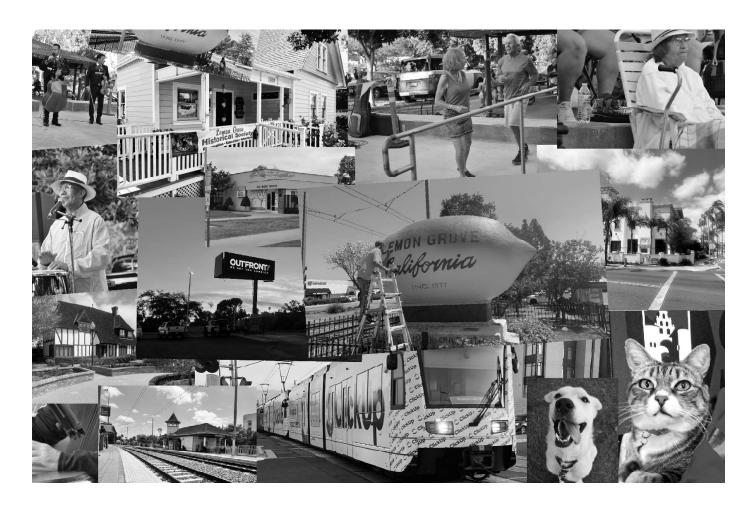

This budget document serves as a financial plan for the City of Lemon Grove, but most importantly it is a communications device. The budget presents the public an opportunity to review the types of services and level of service provided within the constraints of the City's finances. The allocation of financial resources translates into what services will be provided to the community within the constraints of funding availability. As community needs and demands for service change, the allocation of resources must respond accordingly. Therefore, this document communicates financial information to allow for an informed citizenry.

"THE BEST CLIMATE ON EARTH" LEMON GROVE, CALIFORNIA

EST. JULY 1, 1977

Just a few miles east of San Diego lies the community of Lemon Grove, a diverse mix of more than 28,000 residents who enjoy all the charm of small-town living with the conveniences of big city proximity. The City of Lemon Grove became California's 414th municipality on July 1, 1977.

Now in its 48th year of service, Lemon Grove leadership is working harder than ever to secure a stable future for the City.

ELEMON GROVE

Pictured: Public Works crewmembers

The history of Lemon Grove pre-dates incorporation back to 1869 when Robert Allison purchased a portion of Rancho Mission San Diego and became the City's first resident. A rail line was extended from San Diego to Lemon Grove in 1890, and the production of citrus and berry crops boomed in the warm, temperate climate.

The community's first subdivision was later built in 1892 which resulted in 15-20 structures constructed. The center of town developed along the rail lines and included a small rail depot and the first general store, which also housed the post office and a school. Still known for its

near-perfect climate, Lemon Grove residents relish the City's diverse housing options for owners and renters, strong schools, local parks, and an eclectic blend of shopping and dining offerings. In fact, the City has seen a recent uptick in new families moving to Lemon Grove thanks to these very amenities. Lemon Grove is proud to be a welcoming home to a diverse mix of residents.

LAND USE & TRANSPORTATION

Pictured: The Metropolitan Transit System serving Lemon Grove community

The City of Lemon Grove today is characterized by a well-established land use pattern. The commercial and industrial areas are primarily located along Broadway and Federal Boulevard in the northern part of the City. The traditional downtown near Broadway and Lemon Grove Avenue provides shopping opportunities primarily oriented to residents and local workers. Commercial activity extends southward along Lemon Grove Avenue as well. The Big Lemon monument, the world famous 95-year-old 3,000-pound lemon, sits prominently downtown, and recalls images of the community's industrious spirit and agricultural roots. Moreover, many buildings from Lemon Grove's early days still stand and provide a connection to the community's historic origins.

Lemon Grove is transiting into a community with convenient proximity to public transportation. The City has two trolley stations along the MTS Orange Line, 26 MTS bus stops and is bordered to the north by State Route 94 (SR-94) and the east by State Route 125 (SR-125) which allows for easy access to nearby destinations.

CITY OF LEMON GROVE

COMMUNITY LIFE

Pictured: Concerts in the Park attendees salsa at Berry Street Park

The City of Lemon Grove is committed to providing residents with top-quality services. Among these services is the maintenance and care of eight smoke and alcohol-free public parks for the enjoyment of residents and visitors. Parks provide diverse opportunities for physical activity and relaxation as well as a space for social gatherings and informal social interaction.

The City provides ample opportunities for community engagement on its four social media platforms (Facebook, Instagram, YouTube, & Threads). Lemon Grove offers plenty of hands-on and virtual opportunities for community connection.

LOCAL SCHOOLS

slogan of 'Best Climate on Earth,' the School District touts the tagline of 'Best School District on Earth'. The District, is comprised of five elementary schools, one middle school, and one K-8 school. When middle school students matriculate, they attend high school in neighboring Grossmont Union High School District.

Elementary Schools: Lemon Grove Academy, Monterey Heights Elementary School, Mount Vernon Elementary School, San Altos Elementary School and San Miguel Elementary School

Middle School: Lemon Grove Academy of Science and Humanities (grades 7-8)

K-8 School: Vista La Mesa Academy

The governing body of Lemon Grove School District is the five-member, voter elected Board of Education. The Lemon Grove City Council and the School Board are actively collaborating to best serve the residents of Lemon Grove.

EVENTS

Pictured: Community members celebrate Arbor Day at Treganza Heritage Park

Pictured: Community members attend Concerts in the Park

Pictured: Trunk-or-Treat costume contest

Pictured: Community Services Specialist Isabel Armenta at Paws in the Park

Annually. These events are supported by the generous donations from City sponsors in the local business community. To become a sponsor, contact 619-825-3815.

Summer Concerts in the Park: Beginning in the end of June every year, the City hosts a concert series with a variety of musical genres to enjoy. Traditionally, concerts are held on Thursday evenings at Berry Street Park beginning at 6:30 p.m.

Community Bonfire: For the last 28 years, the first Friday in December brings with it the annual Lemon Grove Community Bonfire. Live entertainment, activities for children, hayrides, seasonal treats and community camaraderie make the beloved event a success year after year.

Eggstravaganza: In a secular celebration of spring and Easter, the City hosts an annual Extravaganza Egg Hunt for the community.

Additional Events: Movies in the Park in the summer; Trunk or Treat at Halloween; Paws in the Park; and Arbor Day are additional ways the City brings the community together.

CITY OF LEMON GROVE

EMURALS

Murals in Lemon Grove are more than just public art; they are a testament to the City's identity, creativity, and sense of community. Local artists often collaborate with schools, community organizations, and businesses to create stunning works of art that beautify the city as well as serve as educational tools that teach residents and tourists about Lemon Grove's past, present, and future.

In addition, you can see one of the most iconic murals "History of Lemon Grove" located on the wall of the Lemon Grove Bistro. This mural captures the transformation of Lemon Grove from its early agricultural roots to the community that it is today. It depicts vivid images of orchards, landmarks, and significant historical figures paying homage to the City's origins and growth.

CITY OF LEMON GROVE

EMON ROVE

CITY OF LEMON GROVE

Office of the City Manager

July 1, 2025

Honorable Mayor and Members of the City Council:

On behalf of City staff, I am pleased to present the Fiscal Year (FY) 2025-26 Consolidated Operating and Capital Budget (Budget) for the City of Lemon Grove as approved by the City Council at the Regular Meeting held on July 1, 2025. The City continues making positive strides and is in a stable financial position. The adopted FY2025-26 Budget totals \$52,264,177 of expenditures and expenses, with \$22,779,582 of that amount from the General Fund. The City's annual budget serves as a financial road map for the upcoming year, reflecting the City Council's strategic priorities. The FY2025-26 consolidated budget book continues to be a product of continual improvement, representing a greater level of clarity and reflecting the established guidelines from the National Advisory Council on State and Local Budgeting and the Government Finance Officers Association's best practices in budgeting.

In May and June 2025, the City Council reviewed and updated their strategic priorities for FY2025-26. These priorities were formally adopted on June 17, 2025 and reflect the continued commitment to improve the physical and service environment in Lemon Grove. A detailed list of the FY2025-26 City Council strategic priorities is in the City Council Work Plan found on page 20 in this budget book. To the extent possible, all aspects of the proposed budget for FY2025-26 are designed to address these strategic priorities.

In support of City Council policy and accepted budgeting principles, the FY2025-26 General Fund budget maintains a structurally balanced operating budget where anticipated total revenues and net transfers-in slightly exceed expenditures. The General Reserve policy is maintained with unrestricted Reserve balance above the minimum required 25% of the adopted General Fund adopted operating budget, excluding one-time expenditures.

Fiscal Year 2025-26 Budget Process

Building upon the work that began in FY2022-23, the City continued to involve the residents and community members during budget development. Public meetings were held and open public communication was maintained, that focused on the revenues and expenditures of the City's General Fund and priority setting. A community workshop was held to allow both the City Council's and community members' inputs as to the priorities they felt were most important for Lemon Grove. The community members were then able to hear from City leaders and give feedback about the topics most relevant to them. This process was used to engage any community member to voice their priority for the budget.

The City is committed to growing budget engagement each year in an effort to improve community engagement and understandability in the budget development process. It is the goal of this community engagement to create greater understanding between community wants and needs and budget allocation.

As part of the prior City Council's strategic priority to facilitate revenue growth, the City Council placed a transactions and uses tax (sales tax) measure, The Lemon Grove Sales Tax Measure, (Measure T), on the November 5, 2024 General Election ballot to increase one percent or one cent sales tax, from 7.75% to 8.75%. An overwhelming majority of the voters, 71%, approved this new revenue measure which took effect on July 1, 2025. In February 2025, a seven-member Measure T Oversight Committee (Committee), a group of city residents and business owners was appointed to advise the City Council on how to spend this new revenue. The Committee held a public meeting in May 2025 where City staff presented proposed projects for Measure T spending in FY2025-26. The Committee made their selections of the proposed projects, formed the Recommended Spending Plan, and presented to the City Council at the Regular Meeting held on June 3, 2025.

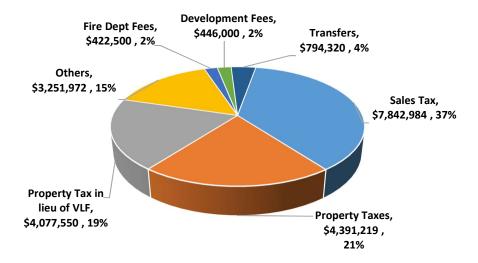

Financial Overview

General Fund

The General Fund is the City's main operating fund, where 44% of the City's FY2025-26 financial activity takes place. In FY2023-24, the General Fund had a \$3.3 million surplus. According to the City's General Reserve Policy, half or \$1.6 million is transferred to the General Reserve Fund in FY2025-26 and the other half is budgeted to be used towards storm drain improvements. Excluding that one-time use of the surplus, the General Fund's operating budget for FY2025-26 is \$21 million. With many uncertainties of potential negative impact of the federal fiscal policy (tariffs) on the economy, a conservative and cautious approach was taken during the budget process.

The General Fund total revenues and net transfers-in, excluding the one-time transfer out of \$1.6 to General Reserve Fund, is budgeted at \$21.2 million. The chart below identifies the major revenues and net transfers-in.

General Fund Revenues and Net Transfers-In

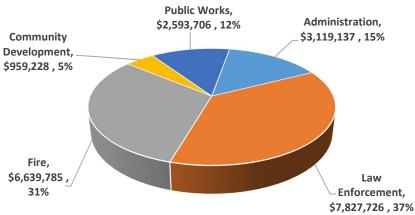

Total revenues is estimated to be \$20.4 million, which is 2% lower than the FY2024-25 projected revenues of \$20.8 million. The net transfers-in of \$0.8 million is 6% higher comparing to the FY2024-25 projected actual, mainly related to the transfers-in from Successor Agency. Majority of the revenues and net transfers-in, \$16.3 million or 77%, is from sales and property taxes. Sales tax was projected to have a

moderate increase from the FY2024-25 projected actual. Property taxes were estimated to have a 3% increase. The California Proposition 13 limits the annual property tax to 1% of the assessed value and limits the assessed value increase to 2% per year.

The General Fund total expenditures is budgeted at \$21.1 million, excluding the \$1.6 million one-time use of the FY2023-24 surplus. The chart below identifies the expenditures by major function.

The FY2025-26 total budgeted expenditures is slightly higher comparing to FY2024-25 projected actual. This is a combination of factors pooled together in creating the growth. Primarily, all contractual obligations, including labor agreements, increased by either the general consumer price index (CPI) or the predetermined percentages, and the pension obligations to CalPERS increased due to the lower return on investments in previous years. Fire and Law Enforcement, including Animal Control, represent \$14.5 million or 68% of total General Fund expenditures. Law Enforcement is 100% contracted. Administration, which includes City Council, City Manager, City Attorney, City Clerk, Human Resources, Finance, Community Services, and Non-Departmental expenditures, takes up \$3.1 million or 15% of the total expenditures. City Attorney is also 100% contracted.

In summary, the General Fund budget reflects \$21.2 million in revenues and net transfers-in, and \$21.1 million in expenditures, excluding the one-time use of the General Fund FY2023-24 surplus, thus producing a structurally balanced budget for FY2025-26.

General Reserve Fund

The FY2025-26 budget for the General Reserve Fund included a transfer-in of \$1.6 million or 50% of the General Fund's FY2023-24 surplus of \$3.3 million. Half of that transfer in will be invested in the City's Section 115 Pension Trust and the other half is adding to the unrestricted Reserve. It is estimated the unrestricted Reserve of \$5.8 million will cover 27.5% of the FY2025-26 General Fund adopted operating budget of \$21.1 million, excluded the one-time expenditures of \$1.6 million. This meets the requirement of the General Reserve Policy, which is 25% or greater.

Measure T Fund

Measure T will bring new sales tax revenue to the City. It was estimated to generate approximately \$5.9 million annually to fund several essential City services for the next ten years. Although it is a general revenue for the City, for accountability and transparency purposes, this revenue and related expenditures will be accounted for in its own fund. The FY2025-26 budget of \$5.3 million included \$4.2 million on improving infrastructure (fixing streets, adding new storm drains, improving sidewalks and traffic), \$0.6 million on improving public safety by piloting the Community Oriented Policing and Problem Solving (COPPS) program, \$150K on the Yiftee Gift Card Program to help improve the business community, and \$325K on improving Public Works efficiency and staff safety by replacing vehicles and equipment that have exceeded their useful lives.

Special Revenue Funds

Special revenue funds are used to account for specific revenue sources that are restricted for specific purposes. They include Gas Tax, Parkland Dedication Ordinance, Supplemental Law Enforcement Services, Sundry Grants, Community Development Block Grant (CDBG), Transportation Development Act (TDA), Roadway Lighting District, TransNet, Integrated Waste Reduction, Wildflower Assessment District, Serious Traffic Offender Program (STOP), Storm Water Program, Public Education and Governmental Access (PEG), and Opioid Settlements. These are all restricted in what programs and activities they can fund and are not available for General Fund use. They do, however, contribute to the General Fund through charges for services supplied by General Fund departments and divisions based on the formal cost allocation plan.

Most of the special revenue funds are budgeted as status quo. There are a few funds that include budget for special projects in FY2025-26. Specifically, to improve public access to City Council meetings and workshops, the City budgeted \$250K from the PEG Fund to upgrade the audio-video (AV) system at the community center, a mixed use facility, where the City Council meetings and workshops are regularly held. One of the functions the AV system upgrade will provide is to allow the meetings to be broadcasted live and recorded. The General Benefit Lighting District budget has an increase of \$50K in professional services to evaluate possible lighting improvements in certain areas and a one-time \$75K for the Broadway Downtown Business District lighting improvements. The Sundry Grants budget included grants funding of \$800K awarded for the Connect Main Street Project, Phases 2 to 6.

Separate Entity Budgets

Sanitation District

Although included in the consolidated budget, the four sanitation related funds represent a separate entity, the Lemon Grove Sanitation District (District). The City of Lemon Grove Mayor and Councilmembers also serve as the governing board of the District. The District runs as an enterprise fund, so called because it operates in its own environment in which the revenues for the services provided should equal the costs of providing the services. In this case, the enterprise is the conveyance and treatment of wastewater within the City boundaries.

The FY2025-26 Sanitation District Operating Budget (District Budget) remains similar to prior years, with an overall 4% decrease in total expenses comparing to the FY2024-25 projected actual. The estimated cost of wastewater capacity and treatment decreased by \$0.4 million or 14% and there is no expense budgeted for the Metro Pure Water project. The District Budget has an increase of \$1.0 million transfers-out, half to the Sanitation Capital Fund and the other half to the Pure Water Fund. A rate study was conducted on sewer rates in FY2022-23, resulting in a new hybrid rate plan, which separates residential and commercial rates. Commercial rates moved from a flat rate fee to a usage based system. On May 2, 2023, the Board approved a maximum 3% rate increase for FY2023-24 to FY2027-28 as part of the five-year sewer rate study completed in January 2023. However, it has been common practice for the Board to adopt a rate less than the allowed maximum. The Board did not approve any rate increases in FY2023-24 and FY2024-25. In the FY2025-26 budget, the Board did approve a 3% sewer rate increase.

The District and City's Public Works Department experienced staff turnovers and shortages in the past few years, resulted in many sewer capital improvement projects being deferred. In FY2025-26, now with fully staffed District and Public Works Department, approximately \$9.2 million is budgeted in the Capital Budget to begin putting the District back on track on completing the needed rehabilitations and improvements. One of the projects is video inspection and assessment of the sewer main line system to identify problem areas for future capital improvement projects. Other projects include replacement and upgrade of thousands of lineal feet of 8-inch and 10-inch diameter sewer main lines at various locations.

Successor Agency

On February 1, 2012, the City of Lemon Grove assumed the role of the Successor Agency to the former Community Development Agency, taking responsibility for winding down the redevelopment agency's operations and liquidating its assets. All financial activity related to the Successor Agency is reflected in the Funds 60 and 64 budget. The City is responsible for paying annual debt service on the former redevelopment agency's bonds and loan. In FY2025-26, the debt service payments will total approximately \$2.0 million. The State of California Department of Finance through the County of San Diego distributes bi-annual reimbursement to the City to cover the Successor Agency debt service and administrative costs.

Capital Improvement Program

The FY2025-26 Budget includes a five-year Capital Improvement Program (CIP), that identifies the City's five-year plan for the design and construction of multiple capital projects. This is both a fiscal and strategic planning tool that outlines and monitors all the planned projects that are either funded or not funded over a rolling five-year period. Various funding sources fund the FY2025-26 CIP projects totaled \$21.7 million, an increase of \$1.1 million or 5.3% from FY2024-25 CIP Budget. The Sanitation District Capital, Measure T, and one-time fund from the General Fund FY2023-24 surplus and insurance provide funding of \$15.5 million or 71.4% of the CIP Budget.

Conclusion

The City Council continues to face difficult decisions. Often, the challenging part of governing comes when constituents express concerns and want more services, while the City has limited resources to accommodate the limitless requests for expansion of existing services. The Mayor and Councilmembers' decision to continue the residents and community members' participation in the budget process, open workshops on budget issues, and provide input into the City's strategic priorities has dilute the singular focus and open broader vision for the City's future. Having the residents' or community members' participation in each year's budget process helped educate and increase the understanding of how difficult managing conflicting needs and priorities can be in local government.

The City continues to strive toward maintaining financial and economic sustainability and stability. The current established revenue stream will continue to fund the level of service provided today and is expected to remain stable through the next fiscal year. Thanks to the voter approved Measure T, a new general revenue source will be available for the next ten years to augment the capital improvement program in fixing and improving the City's aging infrastructure, parks, and facilities, to replace aged vehicles and equipment to improve service efficiency and staff safety, and to improve public safety and community. Staff is committed to continue pursuing cost savings wherever possible and revenue generating projects throughout the year. Budgeting is a process of estimation and projection. As the fiscal year progresses, the budget will be revised through adjustments, and a mid-year budget update to accurately anticipate the status of the General Fund and others.

This adopted FY2025-26 Consolidated Operating and Capital Budget is a result of hard work and a cooperative team effort of city staff, the community members, and City Council. This budget supports the strategic focus areas of the City Council's Priorities and provides for expanded services to the community members. It is a product that the entire city team can be proud to have played a part.

In closing, my personal thanks go to the City's executive team and all city staff that continue to take the City's fiscal responsibility to heart and work to propose a budget that covers essential basic municipal operations and allowing the City Council to appropriate funding to meet the City Council's work plan. I would like to express my appreciation to the Finance Director Stacey Tang and her finance team for their tireless work on this budget. Lastly, to the City Council for providing the leadership and direction in preparation of this budget.

Respectfully submitted,

Lydia Romero City Manager

PRESENTED TO

City of Lemon Grove California

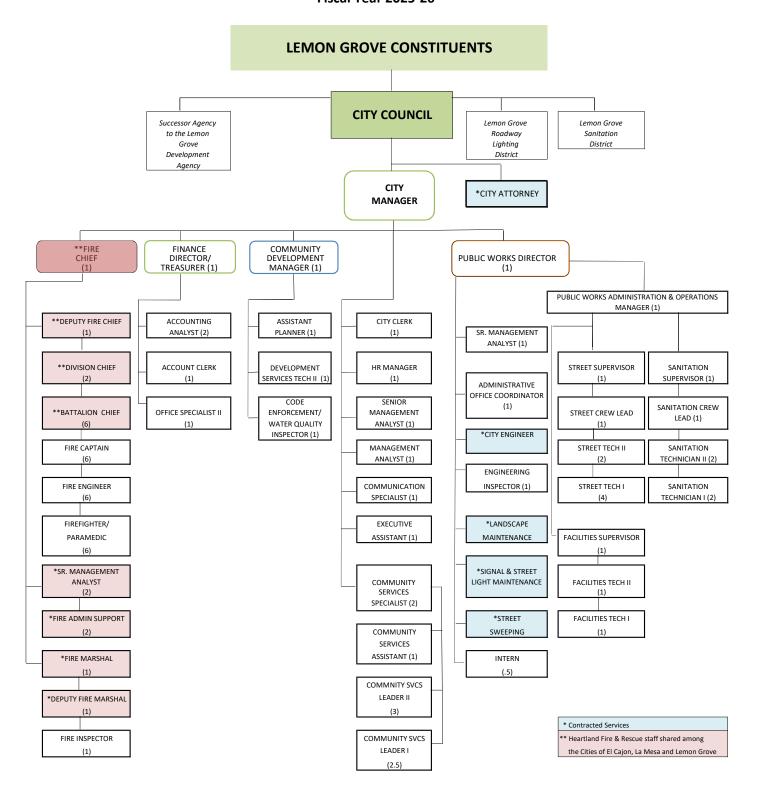

For the Fiscal Year Beginning

July 01, 2024

Executive Director

Christopher P. Morrill

City of Lemon Grove Organzational Chart Fiscal Year 2025-26

fy2025/26 CAY COURCIA PLAN

Strategic Focus Area: Public Streets, Storm Drains & Sidewalks

Objective and Initiative

- **Lighting Initiative for Public Spaces:** Explore establishing a multi-year plan for improved lighting in downtown and public areas as a deterrent to crime and to contribute to a more attractive community.
- New Sidewalks: Identify where the city has the ROW and/or land to construct needed sidewalks for pedestrian connections between neighborhoods and parks. Select one sidewalk for completion in FY25-26.

Strategic Focus Area: Revenue & Economic Development Objective and Initiative

- Vacant Commercial and Office Property Project: Analyze the possibility of an ordinance requiring vacant properties of commercial and office spaces to be maintained in a manner that the visual appeal reflects the community's standards of cleanliness, care, and attractiveness.
- **Planning and Building Permit Process:** Convene a Council Study Session and explore software options and costs for online submittal and tracking of planning and building applications.

Strategic Focus Area: Public Safety & Homelessness Objective and Initiative

Sheriff Staffing: Hire additional Sheriff's Deputies to provide an increased presence and help keep the community safe.

Strategic Focus Area: Community Life Objective and Initiative

- **Community Events:** Add a new event to the city's current event schedule. Begin planning and fundraising for Lemon Grove's 50th Anniversary and take part in celebration of America's 250th Anniversary.
- **Recreation and Senior Centers:** Identify funding and/or Partners to open the Senior Center and the Recreation Center. Possible contract with private sector vendors to offer programs.
- Parks Expansion and Equipment: Pursue grant opportunities to purchase or develop new or expanded parks.

 Include looking at a pocket park in the Wildflower area and park space on Environmental Land Trust. (Multi-year strategy)

FY2026 BUDGET

City Council Work Plan FY 2025-26 - Strategic Focus Areas

The City of Lemon Grove, like other municipalities in the San Diego county area, continues to face challenges and uncertainties as the economic impacts of the federal fiscal policy (tariffs). This economic environment presents an opportunity for creative problem solving and extraordinary leadership. These strategic focus areas are the result of the Mayor and Councilmembers' strong leadership and the enduring innovation of city staff to present immediate and new ways to tackle the issues relative to the City's everchanging environment.

Over the past years, the dedicated team of city employees has been continuously adjusting and reevaluating business practices to best meet the needs of the community and respond to the strategic priorities set by the Mayor and Council. City staff has not only demonstrated the quality of governance required to meet every day's challenges, but also established a framework to build a stronger, more resilient workforce that will meet the challenges in the future to benefit all residents of the Lemon Grove community.

Aligning the Vision

The consistency of the budget revenues and reserves allow the City to boldly engage the challenges of an uncertain and ever-changing economy, while strengthening community engagement. These challenges have served to support our vision as the City built the FY 2025-26 Budget. As the budget process melded, the City Council identified four strategic focus areas in their Strategic Work Plan that drove the alignment of priorities, the commitment to tackle the aforementioned challenges, and the deep commitment to the employees who have continued to prove their unwavering dedication to the community. The four strategic focus areas include:

- Public Streets, Storm Drains & Sidewalks
- Revenue & Economic Development
- Public Safety & Homelessness
- Community Life

Public Streets, Storm Drains & Sidewalks

Lighting Initiative for Public Spaces. Members of the Lemon Grove community expressed their desire to increase the lightening in the City. The City Council has committed to exploring a multi-year strategy to improve lighting in public areas. The FY2025-26 General Benefit Lighting District budget included \$75,000 for lighting improvements in the Broadway Downtown Business District.

New Sidewalks. As road conditions are being improved, sidewalks must also be included in the mix. Sidewalks are an important element in creating a safe walkable City. The Sidewalk Master Plan is focused on identifying required and needed upgrades, additions, on-going maintenance of city sidewalks, and land ownership. The City has committed \$900,000 in this fiscal year to improve and maintain sidewalks, including identify where the City has the Right of Way (ROW) and/or land to construct needed sidewalks for pedestrian connections between neighborhoods and parks and select one sidewalk for completion in FY 2025-26.

Revenue & Economic Development

Vacant Commercial and Office Property Project: Analyze the possibility of an ordinance requiring vacant properties of commercial and office spaces to be maintained in a manner that the visual appeal reflects the community's standards of cleanliness, care and attractiveness.

Planning and Building Permit process. Convene a Council Study Session and explore software options and costs for online submittal and tracking of planning and building applications.

Public Safety & Homelessness

Sheriff Staffing: Hire additional Sheriff's Deputies to provide an increase presence and help keep the community safe. A Community Oriented Policing (COPPS) pilot program will be established to partner with the Lemon Grove community to work in collaboration for a safer city.

Community Life

Community Events: Add a new even to the City's current event schedule. Begin planning and fund-raising for Lemon Grove's 50th Anniversary and participate in America's 250th Anniversary celebration. These events help strength a community.

Recreation and Senior Centers: Identify funding and or partners to open the Recreation and Senior Centers. Possible contract with private sector vendors to offer programs.

Park Expansion and Equipment: Pursue grant opportunities to purchase or develop new or expand parks. Include looking at a pocket park in the Wildflower area and park space on Environmental Land Trust.

Final Thoughts

The progress on these strategic focus area objectives and planning goals will be presented to the City Council throughout the year. Updated estimates of costs will be presented as available and included in the mid-year budget update for potential implementation by the end of this fiscal year. Strong revenues, good policymaking, and long-term thinking by the Mayor and Councilmembers have created economic stability for the City of Lemon Grove and will allow the City to continue providing excellent core services to the community. This fiscal year will continue to be as challenging as the last. However, through resiliency and the backbone of fiscal stability that this year's budget includes will not only allow us, as a community, to continue to succeed, but will propel ourselves to excel. The past few years have proven that the City of Lemon Grove has the leadership, dedication, and innovative spirit to govern like no other city and deliver on the strategic commitments to the people of Lemon Grove.

6/17/2025	Tuesday	City Council - Adopt Resolution to Approve FY2025-26 Consolidated Operating and Capital Budget	City Council, City Manager & Finance Director	

FUND LISTING

The City manages its revenue and expenditures or expenses through various funds. Between the City, Roadway Lighting District, and Sanitation District, the FY2025-26 consolidated budget is comprised of 31 funds. Each fund identified in this budget is described below. The basis of accounting for all funds is the same method as used in the Annual Comprehensive Financial Report.

GOVERNMENTAL FUNDS

General Fund Group

01- General Fund

The primary day-to-day operating fund for the City, which reflects all financial activity that is not required to be accounted for in another fund. Public safety, government administration, community services, street maintenance, environmental programs, and park maintenance are funded through the General Fund.

06 - General Reserve Fund

This fund is the City's savings account. The reserve is intended for use in times of emergency.

24 - In Lieu Fees Fund

Rather than build out public improvements required by the development of properties, developers entered into an agreement with the City to provide funds to the City in lieu of completing the public improvements themselves. The City can only spend the money on the specific public improvements listed in the agreement, such as undergrounding, sidewalks, and weed abatement, and may only spend the funds on those types of projects in the vicinity of the development.

28 – American Rescue Plan Act Fund

This fund manages federal funds that were related to the American Rescue Plan Act in response to the COVID-19 pandemic. These funds are restricted to specific programs and projects as outline in the plan's requirements, including but not limited to, infrastructure improvements, business development, and other programs focused on community improvements. Funds may not be used to pay for debt, retirement costs, or unfunded accrued liability. These funds are no longer being received at this time. Current funds received are fully obligated and allocated to projects.

37 - Measure T Fund

This fund accounts for the 1% or 1 cent add on sales tax revenue from the Measure T approved by the voters in the November 2024 General Election. This revenue is considered unrestricted general revenue and received into the general fund of the City. This fund can be used for projects or expenditure items reviewed and recommended to the City Council by the Measure T Oversight Committee under Lemon Grove Municipal Code Chapter 3.18 Lemon Grove One Cent Transactions and Use Tax.

Special Revenue Funds

02 - Gas Tax Fund

Revenues for this fund come from the State of California Gasoline Tax, including SB1 road maintenance and rehabilitation account (RMRA) monies. Fund proceeds may be used to research, plan, construct, improve, maintain, and operate local streets.

05 - Parkland Dedication Ordinance Fund

The City Municipal Code (Code) requires that subdivision development set-aside park land that will eventually be developed as part of the municipal park system. The Code also allows the payment of a fee in-lieu of dedicating actual land. Proceeds in the fund may be used by the City for purchase of park land, development of new parks, or major rehabilitation of existing parks.

07 - Supplemental Law Enforcement Services Fund

This fund, also known as the COPS fund, is supported by State grant proceeds. This fund is used to augment the staffing level of Sheriff Deputies. At one time, the grant amount paid for one deputy; today it pays for approximately half of one deputy position.

08 - Sundry Grants Fund

This fund provides for management of grants currently being administered by the City. It functions as an "in-and-out" fund to ensure grant proceeds and expenditures are not mingled with the General Fund or other fund proceeds.

09 – Community Development Block Grant Fund

This fund manages grant proceeds from the Community Development Block Grant program. Funds are expended and then reimbursed by the County of San Diego. This are Federal Funds passed through the County.

10 – Transportation Development Act (TDA) Fund

The proceeds are allocated from the San Diego Metropolitan Transit Service (MTS) for maintenance of landscaping along the trolley corridor and maintenance of trolley stations and bus shelters throughout the City. Annually, the City is reimbursed for the prior year's expenditures.

11 & 12 - Roadway Lighting District Funds

The Lemon Grove Roadway Lighting District manages two funds for two separate activities. Fund 11, the General Benefit Fund, provides funding for street light benefits throughout the community. Fund 12, the Local Benefit Assessment Fund, provides for enhanced lighting benefits at the mid-block.

14 - TransNet Fund

This fund manages proceeds distributed by SANDAG for local street and road improvements funded through the transactions and use tax approved by San Diego County voters in 2004 for regional transportation projects (the TransNet Extension Ordinance). This fund is specifically used to finance significant right-of-way improvements (streets and sidewalks), storm drain, and traffic related projects.

Special Revenue Funds - continued

21 - Integrated Waste Reduction Fund

The City relies on this fund to manage its recycling and household hazardous waste disposal program as part of compliance with Assembly Bill 939 Integrated Waste Management Act of 1989. The City relies on this fund for contractual services to provide household hazardous waste events, promote a higher level of recycling within the City, and prepare annual program reports as required by AB939.

22 - Wildflower Assessment District Fund

This fund manages the Wildflower Landscaping Maintenance Assessment District. The fund tracks assessment revenue and expenditures related to landscape common areas within the Wildflower Assessment District.

23 - Serious Traffic Offender Program (STOP) Fund

This fund receives a portion of impound fees collected within the City. The City uses this fund to pay for Sheriff traffic division overtime and other traffic related expenses.

26- Storm Water Program Fund

The Storm Water Program Fund was established in FY2005-06 to collect designated storm water program fees and support the City's storm water program, a State and Federal mandated program. The program fees have never fully paid for the program since its inception, so the revenue is subsidized by the General Fund. New state mandates have increased fund expenditures over the past few years.

30 - Public Education and Government Fund

This fund collects designated monies from cable franchisees that operate within the City. The use of these monies is restricted to capital items that enhance or facilitate public access to government information.

35 – Opioid Settlement Fund

This fund accounts for settlement from the National Opioid Settlement against manufacturer, distributors and other entities responsible for aiding the opioid epidemic. The use of fund is restricted for opioid abatement activities.

Capital Projects Funds

27 - Regional Transportation Congestion Improvement Program

This fund manages fees related to the passage of the TransNet Extension Ordinance. The fees, which are set annually by SANDAG, represent per housing unit fees for new residential development. Revenue collected must be used on major arterial street improvement projects.

32 – Capital Reserve Fund

Initially this fund was established to track the purchase of a fire engine with grant funding in FY2012-13. The remaining fund balance will be used for the Capital Improvement Program.

Capital Projects Funds - continued

33 – Main Street Promenade Community Facilities District Fund

During FY2013-14, the voters within the Main Street Promenade Community Facilities District voted to create an assessment to fund ongoing maintenance and capital improvements to the Main Street Promenade Park.

PROPRIATERY FUNDS

Enterprise Funds

The Lemon Grove Sanitation District manages four Sanitation related enterprise funds.

15 – Sanitation: Operating

The District relies on Fund 15 to collect revenue generated by Sanitation District rate payers and to pay the operational costs to operate the system.

16 – Sanitation: Capital

The Capital Fund is used to set aside funds for equipment replacement, sewer rehabilitation projects, and rate stabilization.

17 - Sanitation: Pure Water

The Pure Water Fund is used to save funds for the upcoming capital costs to construct the Pure Water recycling system in coordination with the City of San Diego and other neighboring communities.

19 – Sanitation: Capacity

When there is a new tap-in to the sanitation system, the fee paid for the connection is maintained separately in this fund. This revenue may be used on projects that increase the capacity of the sewer system.

Internal Service Funds

25 – Self-Insured Workers Compensation Reserve Fund

In FY2003-04, the City began to fund its own workers' compensation program in order to have better control over the drastic increases in workers' compensation insurance premiums. This fund covers the first \$150,000 of each claim and then the excess insurance policy kicks-in.

29 - Self-Insured Liability Reserve Fund

In FY2011-12, the City established the Self-Insured Liability Reserve Fund to fund general liability claims. This fund pays for the first \$100,000 of costs related to each claim and then the City's insurance assumes liability. In FY2020-21, the City moved from an excess insurance policy to a primary general liability policy with first dollar coverage. This fund will continue to operate while there are open claims that occurred prior t 7/1/2020 and will eventually be phased out.

FIDUCIARY FUND

Private-Purpose Trust Fund

60 & 64 - Successor Agency Funds

This fund receives reimbursements for enforceable obligations approved by the California Department of Finance and makes payments for said obligations, namely debt service payments on bonds issued by the prior Lemon Grove Community Development Agency and loan made by the City to the prior Lemon Grove Community Development Agency.

CAPITAL IMPROVEMENT PLAN

FY2025-26 Capital Budget

Five-Year Capital Improvement Program

Introduction

The Capital Improvement Program (CIP) identifies the City's five-year plan for the design and construction of multiple capital projects. This is both a fiscal and strategic planning tool that outlines, prioritizes, and monitors all the planned projects that are funded and not funded over a "rolling" five- year term. The document quantifies and defines costs, funding sources, departmental responsibilities, project phases and timing. Each year the CIP will be reviewed and updated as part of the citywide financial planning and City Council goal-setting process. At the same time, it sets a vision for long- term planning and expectations. It is also extremely valuable as a community outreach and communications tool as it clearly shows the major tax dollar investments that are planned and constructed through citywide infrastructure improvements.

The CIP includes five years of projected capital needs, the first year of which will be budgeted in the annual budget. Dollars in the first year of the five-year CIP will be authorized for spending in the project planning, bidding and award process. The remaining four years of the CIP serve as a proposed financial plan subject to annual review by the City Council.

Through the five-year program, there are two types of projects that will be highlighted. First, major rehabilitation projects includes significant maintenance and or updates to existing infrastructure and or facilities that provide essential public services and maintain health and safety. Second, new public improvements includes projects that expand existing infrastructure and or facilities, or construct new facilities, to address present and future needs of the community.

The CIP is broken down into three major sections. Revenue Summary, Five-Year Project Overview, and Individual Project Details.

<u>Revenue Summary</u>: Highlights funding sources that are allocated to the CIP. This is a mixture of restricted and unrestricted funds to plan, design or construct each project.

<u>Five-Year CIP Summary and Project Overview</u>: Describes projects from a variety of informational perspectives. Projects are presented by year, category, and funding source(s).

<u>Individual Project Details</u>: Specific detail about each project identified in the Five-year Project Overview that includes the project type, project category, targeted completion date, responsible department, initial funding year, project status, total project cost and funding source.

Five-Year Capital Improvement Program

Revenue Summary

CIP projects rely on multiple funding sources to design and construct each project, each year. The first year funding plan for the CIP is relatively secured and pending any unforeseen challenges will be completed as shown. Yet, when looking forward to years 2-5 the consistence and stability of any CIP funding source becomes challenging for a number of reasons. First, the funds may be grant related and only serve a specific purpose in a certain amount of time. Second, the funds may emanate from the State or Federal Government. Changes at those levels in funding amounts or the outright cancellation of funds will have a trickle-down effect on future projects the City programs.

It is in this light of uncertain funding sources that the projects are still important enough to be listed and identified as a project / opportunity should a funding source come available. In these instances, the unfunded projects will be included in the CIP; however, no funding sources will be identified.

When looking at multiple funding sources for the CIP, staff relied on the Fund Listing that is embedded in the budget document, of which, is also listed below.

Governmental Funds

General Fund Group

01 - General Fund

This is the primary day-to-day operating fund for the City, which reflects all financial activity that is not required to be accounted for in another fund. A majority of revenue from this fund comes from property and sales tax. Public safety, government administration, community services, street maintenance, environmental programs, and park maintenance are funded through the General Fund.

28 – American Rescue Plan Act

This fund manages federal funding that was provided to municipalities under specific programs and projects restrictions. Included, but not limited to, infrastructure improvements, business development, and community improvements.

37 – Measure T

This fund accounts for the 1% or 1 cent add on sales tax revenue from the Measure T approved by the voters in the November 2024 General Election. This revenue is considered unrestricted general revenue and received into the general fund of the City. This fund can be used for projects or expenditure items reviewed and recommended to the City Council by the Measure T Oversight Committee under Lemon Grove Municipal Code Chapter 3.18 Lemon Grove One Cent Transactions and Use Tax.

Special Revenue Funds

02 – Gas Tax Fund

Revenues for this fund come from the State of California Gasoline Tax, including SB1 road maintenance and rehabilitation account (RMRA) monies. Fund proceeds may be used to research, plan, construct, improve, maintain, and operate local streets.

08 – Sundry Grants Fund

This fund provides for management of grants currently being administered by the City. It functions as an "in-and-out" fund to ensure grant proceeds and expenditures are not mingled with the General Fund or other fund proceeds.

09 - Community Development Block Grant Fund

This fund is used for managing grant proceeds from the Community Development Block Grant program. Funds are expended and then reimbursed by the County of San Diego.

11 - Roadway Lighting District Funds: General Benefit

This fund provides funding for street light benefits throughout the community.

14 - TransNet Fund

This fund is used for managing proceeds distributed by SANDAG for Local Street and road improvements funded through the transactions and use tax approved by San Diego County voters in 2004 for regional transportation projects (the TransNet Extension Ordinance). This fund is specifically used to finance significant right-of-way improvements (streets and sidewalks), storm drain, and traffic related projects.

Capital Projects Fund

<u>27 – Regional Transportation Congestion Improvement Program</u>

This fund manages fees related to the passage of the TransNet Extension Ordinance. The fees, which are set annually by SANDAG, represent per housing unit fees for new residential development. Revenue collected must be used on major arterial street improvement projects.

Enterprise Funds

The Lemon Grove Sanitation District manages four sanitation related enterprise funds.

16 – Sanitation: Capital

The capital fund is used to set aside funds for equipment replacement, sewer rehabilitation projects, and rate stabilization.

Fire Station – Generator Replacement

Project Code	Project Type	Project Category	Та	rget Completion	Responsible Dept.
	Facilities	Replacement			Public Works
Initial Funding Year	Project Phase			otal Project Cost	RTIP Project Code
	Unfunded			100,000	

Project Description:

This project involves the replacement of the existing emergency generator at Fire Station 10. This upgrade increases generator capacities, updates aging equipment, transitions the facility to more reliable fuel sources, and decrease greenhouse emissions. This project seeks to harden the City's critical infrastructure against potential future hazards. This project is unfunded.

Storm Drain Improvement Project

Project Code	Project Type	Project Category	Targe	et Completion	Responsible Dept.
	Storm Drain	Improvement	J	une 2026	Public Works
Initial Funding Year	Projec	Project Phase			RTIP Project Code
FY2025-26	De	sign	\$	750,000	

Project Description:

This project involves constructing new storm drainage facilities throughout the City where drainage facilities is lacking. The project involves connecting storm drains, catch basins and related appurtenances. These measures will control and manage water flow during periods of heavy rainfall, significantly alleviating flooding issues for residents and businsesses at the following locations: North Ave (between Lemon Grove Ave and Grove Street), New Jersey Ave (between Roosevelt Ave and San Miguel), and Lincoln Street (between Golden Ave and Washington).

Initial Funding Year	Projec	t Phase	Total Project	Cost RTIP Project Code
FY 2018-19	Design		\$ 2,	2,460,000

Project Description:

This project involves replacing/upsizing approximately 1,685 lineal feet of existing 8-and 10-inch diameter sewer main, which is currently within with 12-inch diameter pipe, including lateral extensions to several residences. Of the 1,685 lineal feet of pipeline upsizing, the proposed project would relocate approximately 1,500 lineal feet to a new alignment outside the earthen channel banks. This project also includes the construction of a 12-foot wide access road for pipeline maintenance purposes.

Project Code	Project Type	Project Category	Target Completion	Responsible Dept.
	Sanitation	Rehabilitation	Summer 2025	Public Works
Initial Funding Year	Project	Phase	Total Project Cost	RTIP Project Code
FY 2019-20	Design		\$ 3,310,000	

Project Description:

The project consists of replacing approximately 3,500 lineal feet of 8" sewer main, 25 lineal feet of 8" sewer main within a 16" casing by Jack and Bore, installation of 5 new manholes, abandonment of existing sewer mains in place by slurry filling, and the reconnection of 65 sewer laterals. The project also includes the removal of existing sewer pump station equipment and the installation of a new pump station complete with dual submersible pumps, valves and valve vault, graded access road, retaining wall, chain link fencing and pump station controls.

BUDGET POLICY

The purpose of this section is to describe the City's budget policies and procedures. Areas currently covered include:

- Overview of the City's budget process
- Budget amendment requests
- Appropriation policy for operating programs and capital improvement plan projects
- Monitoring budget performance—monthly expenditure reports
- Accounting for completed capital improvement plan (CIP) projects

The City of Lemon Grove emphasizes long-range planning and effective program management. Significant features of the City's budget process include the integration of City Council goal-setting into the budgetary process and the use of formal policies and measurable objectives

Diversified and Stable Base

The City will seek to maintain a diversified and stable revenue base to protect it from short-term fluctuations in any one revenue source.

Long-Range Focus

To emphasize and facilitate long-range financial planning, the City will maintain current projections of revenues for the succeeding five years.

Current Revenues for Current Uses

The City will make all current expenditures with current revenues, avoiding procedures that balance current budgets by postponing needed expenditures, accruing future revenues, or rolling over short-term debt.

The fundamental purpose of the City's Budget is to link what the City Council and staff want to accomplish for the community with the resources necessary to do so. The City's Budget process does this by:

- Clearly setting major City goals and other important objectives;
- Establishing reasonable timeframes and organizational responsibility for achieving them; and
- Allocating resources for programs and projects.

Linking important objectives with necessary resources requires a process that identifies key goals at the very beginning of budget preparation. Setting goals and priorities should drive the budget process, not follow it.

For this reason, the City begins each Budget Plan process with one or more goal setting workshops where City Council members invite goals from community groups, City Council advisory bodies and interested individuals; review the City's fiscal outlook for the next year and the status of prior goals; present their individual goals to fellow City Council members; and then set and prioritize major goals and work programs for the next year. City staff then prepares the Preliminary Budget based on the City Council's policy guidance. Formally articulated budget and fiscal policies provide the foundation for preparing and implementing the plan while assuring the City's long-term fiscal health.

The City Manager is responsible for preparing the budget and submitting it to the City Council for approval. Although specific steps will vary from year to year, the following is an overview of the general approach used under the City's budgetary process:

As noted above, the Budget process begins with City Council goal-setting session(s) to determine major objectives to be accomplished over the next year. The results of City Council goal-setting are incorporated into the budget instructions issued to the operating departments, who are responsible for submitting initial budget proposals. After these proposals are comprehensively reviewed and a detailed financial forecast is prepared, the City Manager issues the Preliminary Financial Plan for public comment. A final budget is then adopted by June 30.

The City Council formally reviews the City's financial condition and amends appropriations, if needed, at mid-year.

Financial reports are prepared monthly to monitor the City's fiscal condition, more formal reports are issued to the City Council on a quarterly basis, and special reports are provided on an "as needed" basis on. The status of major program objectives – including CIP projects – is also periodically reported to the City Council on a formal basis.

The City Council may amend or supplement the budget at any time after its adoption by majority vote of the City Council members. The City Manager has the authority to make administrative adjustments to the budget as long as those changes will not have a significant policy impact nor affect budgeted year-end fund balances.

Section 1. Budget Amendments

Formal amendments to the budget (including increases or reductions in both revenues and expenditures) may be required for a variety of reasons, including:

- Supplemental appropriations approved by the City Council.
- Changes in Memorandums of Agreement.
- Acceptance of grant programs.
- Revisions to currently funded programs, projects and activities.
- Intra-departmental revisions between and within program areas.

A standard Budget Amendment Request form (included as Attachment 6) is used to document all budget changes. Amendments to the budget that do not have significant policy impacts and will not affect budgeted fund balances or working capital may be administratively approved by the City Manager; all other changes require City Council approval.

Policies

Budget Control

Through adoption of the annual budget, the City Council sets major City goals and program objectives, approves timeframes and departmental responsibility for accomplishing them, establishes service levels, and appropriates the resources necessary to achieve objectives and deliver services.

Under our program budgeting approach, departments are provided with significant flexibility in managing the resources allocated to them for these purposes: although detail line item budgets are prepared for each of our operating programs, formal budget controls maintained at the fund level by department. However, in order to help assure that this overall budgetary control goal is achieved, more detailed financial reporting and budget control guidelines are internally used at the program and object level as more fully discussed in the Monthly Expenditure Reports of the Financial Management Manual.

Budget Amendment Authority

- **City Council**. The City Council has the sole responsibility for adopting the City's budget, and may amend or supplement the budget at any time after its adoption by majority vote of the City Council. After budget adoption, all supplemental appropriations from fund balance or working capital require City Council approval.
- City Manager. The City Manager has the authority to make or approve administrative adjustments to the budget as long as those changes will not have significant policy impacts nor affect budgeted year-end fund balances or working capital.
- **Finance Director**. The Finance Director has the authority to make or approve administrative adjustments to all line item accounts at the department and program level, and to adjust offsetting revenue and expenditure accounts based on policies or programs approved by the City Council. However, any such adjustments must not have significant policy impacts nor affect budgeted year-end fund balances or working capital.
- **Department Heads**. Department Heads have the authority to make administrative adjustments within and between their program budgets as long as those changes do not have significant policy impacts nor affect department totals at the fund level. However, even within these guidelines, budget amendments require City Manager approval under the following circumstances:
 - CIP projects. All budget changes to capital improvement plan (CIP) projects.
 - Staffing. All budget changes to staffing accounts, both within and between programs. Note: In accordance with the City's line item control policies, Budget Amendment Requests are not required to correct for overages for sub-object level overtime accounts within the program.
 - Travel, meetings and dues. Any budget increases in this object code at the departmental level. This means Department Heads may approve inter- program budget changes in this object code as long as departmental totals for it are not higher.

Interfund Transfers and Loans

In order to achieve important public policy goals, the City has established various special revenue, capital project; debt service and enterprise funds to account for revenues whose use should be restricted to certain activities. Accordingly, each fund exists as a separate financing entity from other funds, with its own revenue sources, expenditures and fund equity. Any transfers between funds for operating purposes must be included as part of the operating budget. These operating transfers, under which financial resources are transferred from one fund to another, are distinctly different from interfund borrowings, which are usually made for temporary cash flow reasons, and are not intended to result in a transfer of financial resources by the end of the fiscal year. In summary, interfund transfers result in a change in fund equity; interfund borrowings do not, as the intent is to repay in the loan in the near term. From time-to-time, interfund borrowings may be appropriate; however, these are subject to the following criteria in ensuring that the fiduciary purpose of the fund is met:

 The Finance Director is authorized to approve temporary interfund borrowings for cash flow purposes whenever the cash shortfall is expected to be resolved within 45 days. The most common use of interfund borrowing under this circumstance is for grant programs like the Community Development Block Grant, where costs are incurred before drawdowns are initiated and received. However, receipt of funds is typically received shortly after the request for funds has been made.

- Any other interfund borrowings for cash flow or other purposes require case-by-case approval by the City Council.
- Any transfers between funds where reimbursement is not expected within one fiscal year shall not be recorded as interfund borrowings; they shall be recorded as interfund operating transfers that affect equity by moving financial resources from one fund to another.
- Transfer budget appropriation requests must be approved City Manager's Office before
 expenditures are incurred. The only exception is a bona fide emergency, as approved by the City
 Manager. Transfer request between programs, within the same fund, can be approved by City
 Manager's Office. Transfer request between programs must contain adequate justification and
 must be submitted similar to other budget adjustments (except for the need to schedule on City
 Council agenda).

Budget Amendment Request

To ensure that all changes to the budget are correctly recorded and appropriately authorized, a standard Budget Amendment Request form is used to document all budget changes, including those approved by the City Council. As such, any City Council Agenda Report that amends the budget should be accompanied by a completed Budget Amendment Request when submitted to the Finance Director as part of the agenda review process; however, as noted below, it will not be included with the City Council Agenda packet.

Procedures

- Initiating the Amendment. The operating department requesting an amendment is responsible for completing the Budget Amendment Request. If the request requires a new program or account number, the Finance Department should be contacted before completing the form for the assignment of appropriate account numbers. Department Head approval of the request is required before its submission to the Finance Department.
- **Finance Review**. All requests should be submitted to the Finance Director who will review the request to determine the effect of the change on fund balances and to verify the account numbers. Approval by the City Manager may also be required.
- City Council Agenda Reports. Budget Amendment Requests that are related to a City Council agenda report will be pulled by the Finance Department and held pending City Council action. If the City Council approves the item, the request will be processed by the Finance Department without further action required by the department. Items disapproved or changed by the City Council will be returned to the originating department for further action as appropriate.
- **Implementation**. After the Budget Amendment Request has been submitted and approved, the operating department should review the next Monthly Financial Report to ensure that the change has been processed as requested.

Preparing the Budget Amendment Request

As this form updates on-line budgetary information as well as Monthly and Quarterly Financial Reports, its timely completion is essential in maintaining the accuracy of these reports.

Completing the form itself is largely self-explanatory. The following highlights key areas to consider in preparing the form:

- More than One Department. The signatures of all Department Heads are required if more than one department is affected.
- More than One Fund. Only one fund should be affected per form to ensure that any budget transfers between funds will not result in changes in ending fund balance for any of the funds.
- City Manager Approval. Whenever City Manager approval is necessary as discussed above, the
 City Manager Report Transmittal Form should accompany the Budget Amendment Request. If the
 reason for the request is a straightforward one and can be adequately described in the space
 provided on the form under "purpose," no formal report preparation (other than preparing the
 transmittal form) is required.
- **City Council Approval**. The City Council must approve all budget amendments under the following circumstances:
 - Total amendments for expenditures do not equal zero.
 - Total amendments for revenues and expenditures are not equal.
- Reason for the Amendment. In most cases, the space provided on the form under "purpose" should be sufficient to describe the need for the requested change (supporting documentation may be attached if appropriate but it is not required). If the amendment implements City Council or prior City Manager approval of a budget change, the date of this action should also be referenced in this section.

Section 2. Annual Reports on Departmental Spending for Operating Programs

At the end of each fiscal year, department fiscal officers are responsible for preparing concise reports that analyze departmental spending for each of their programs. Although the specific contents and deadlines for submitting these reports will vary from year to year, they will generally:

- Compare budget appropriations with actual expenditures by program and by type.
- Identify reasons for any significant budget overage or underage; and analyze their impact on future operating budgets:
 - Are the variances one-time in nature or will they continue into the foreseeable future?
 - If the variances reflect continuing trends, are they reflected in current budgets?

Under the City's Budget policies, annual appropriations for designated capital improvement plan (CIP) projects lapse after three years unless funds are subsequently appropriated for specific project phases (such as study, design, acquisition or construction). This usually occurs at the time of contract award.

The following sets forth basic procedures for implementing this aspect of the City's Financial Plan policies.

Lapsed Projects

In the event that funding will lapse because sufficient progress has not been made in studying, designing, acquiring or constructing projects within the three-year timeframe following the Budget adoption, the managing department will either:

- Resubmit the project for consideration in a subsequent capital improvement plan.
- Present a report to the City Council recommending that the project be eliminated or indefinitely
 deferred. This report may be prepared on a "case-by- case" basis or incorporated into the overall
 budget review and approval process.

Monitoring The City's Fiscal Performance

Staying on top of the City's fiscal condition on an ongoing basis—on both the revenue and expenditure side of the equation—is an essential part of our overall strategy for preserving our fiscal health. The following summarizes how staff reports on this at the City Council and staff level.

Core Principles

There are four core principles underlying our fiscal monitoring and reporting efforts:

- **Strong Systems**. Have an underlying financial management and internal control system that captures and produces both timely and reliable information (one without the other is worthless).
- Meaningful Reports. To be useful for policy makers and managers, this raw data then needs to
 be analyzed and summarized to answer the key question of: what does it mean? And setting
 specific, periodic reporting goals and standards is one of the best ways of ensuring that this kind
 of analysis is in fact taking place. While this requires more time and effort, it is a critical
 organizational discipline.
- Timely, Open Reporting. Full, open, honest and straightforward disclosure of our fiscal condition on an ongoing basis—whether good or bad—to elected officials, senior managers, the organization at-large and the community is a fundamental precept for effective and responsible stewardship of the public resources that have been entrusted to us. In short, the results may not always be optimal—but if staff is doing its job, they should never be a surprise.
- Organizational Responsibility. On the revenue side (especially in the General Fund), the Finance
 Department plays the lead role in managing the City's fiscal condition; on the expenditure side,
 Department Heads have the principal responsibility for ensuring that the City's resources are used
 wisely and in accordance with adopted plans, policies, service levels and the resources allocated
 by the City Council.

Fiscal Health Monitoring

Annual Reporting

The City will prepare annual financial statements as follows:

- In accordance with City requirements, the City will contract for an annual audit by a qualified independent certified public accountant. The City will strive for an unqualified auditors' opinion.
- The City will use generally accepted accounting principles in preparing its annual financial statements.
- The City will issue audited financial statements within 180 days after year-end.

Interim Reporting

The City will prepare and issue timely interim reports as requested to the City Council, the City Manager, and Department Directors.

City Council-Focused Reports

The following reports are provided to the City Council on an ongoing basis, and except as noted, typically cover both revenues and expenditures. In all cases, these same reports are widely distributed within the organization; and several of these that have broad interest—such as our Sales Tax Newsletter, Quarterly Financial Newsletter and Quarterly Investment Report—are distributed externally to others and posted on our web site.

- Mid-Year Budget Review. Prepared approximately seven months into each fiscal year, this is another opportunity to take a formal look at the City's fiscal performance over the past six months, and take corrective action as needed.
- Quarterly Financial Newsletters. In staying focused on the "big picture," staff issues a one-page
 Newsletter (okay, so it's front and back—but it's still one piece of paper) quarterly focusing on
 key fiscal performance indicators in the General and Enterprise Funds. This includes year-to-date
 revenues, expenditures and changes in fund balance, "Top 10" General Fund revenues (which
 account for about 95% of the total) and budget versus actual expenditures for each of the
 departments. This Newsletter is also distributed electronically to all employees.
- Sales Tax Quarterly Newsletter. Based on information provided by our sales tax advisor, these provide a more detailed look at what's happening with our "No. 1" General Fund revenue source.
- **City Council Agenda Reports**. In every City Council agenda report, staff assesses the fiscal impact of the recommended action, including any budget shortfalls if applicable.
- City Council Notes and Other Ad Hoc Reports. As key information comes to us with significant revenue or expenditure impacts, staff immediately let the City Council know through City Council Notes or other "ad hoc" reports.

Staff-Focused Reports

As noted above, City staff receives the same reports as those listed above. This is supplemented by more detailed reports as follows (which are also available to the City Council upon request

- Monthly Financial Reports. Staff produces and distributes detailed monthly financial reports to
 ensure that records are accurate and up-to-date. (This is one of those "organizational discipline"
 things.)
- Quarterly CIP Expenditure Status Reports. The CIP Review Committee meets at least quarterly
 to review the status of CIP projects. An important part of their role is to identify any problem
 areas with upcoming projects (and resolve them); and to ensure smooth coordination of complex
 projects. These detailed reports on the "project-to-date" budget and expenditure status of all CIP
 projects are distributed to the CIP Review Committee in preparation for these meetings.
- Daily Cash Balance Reports. Every day Finance accesses the City's bank cash balances on-line and compares them to our general ledger. While the primary reason for this is maximum investment of idle cash, it also keeps us on top of our cash position.
- Weekly Cash Balance Reports by Fund. The city issue vendor checks weekly. Before releasing them, the Finance Director personally reviews and approves the check register. Accompanying the check register is a report showing the cash balance in each fund after disbursement of these checks. This not only ensures that adequate funds are available overall to meet these payments, but more importantly, that each fund is able to meet its obligations.

Summary

There are two key aspects to our approach in monitoring our fiscal condition: staff is committed to an ongoing program of collecting meaningful information and reporting on it; and then ensuring that this information is acted upon in a timely manner.

Section 3. Monthly Financial Reports

The Finance Division issues "hard copy" monthly financial reports to assist operating departments in monitoring their expenditures and revenues. These reports detail on a line item basis year-to-date

budget, expenditure and encumbrance information for each operating program and capital improvement plan (CIP) project. Similar information is provided for revenues.

The purpose of these reports is to help identify erroneous postings and approved-but-unrecorded budget changes. It also helps identify any over-budget expenditures that must be corrected, either through internal reallocations or supplemental appropriations requiring City Council approval.

Finance will issue monthly financial reports by the tenth working day of the month (except for June, when longer lead times are required to include year-end items).

Budgetary Controls

- Operating departments are responsible for ensuring that adequate funds are available within the object budget for the program (or phase level for CIP projects) before submitting payment vouchers and purchase orders to Finance for processing.
- Operating departments are responsible for addressing on a timely basis any budget totals that are over-expended at the object level within the operating program or phase level within individual CIP projects.

Corrective Action

- Operating departments are responsible for initiating corrective action for any problem areas. There are generally two options for this:
 - Submitting a memorandum to Accounting requesting a correction due to incorrect coding or posting of charges or receipts.
 - Preparing a Budget Amendment Request.

Note. Depending on the circumstances, this may require City Manager or City Council approval.

Section 4. Accounting for Completed CIP Projects

Under the City's capital improvement plan (CIP) budget policies, funding is approved for each CIP project by phase when the Financial Plan is adopted. Unless otherwise approved by the City Council, appropriations for each phase lapse after three years if no activity is shown for the account.

As the project proceeds, there are a number of systems for monitoring its status, including online financial reports, formal monthly and quarterly financial reports, formal CIP status reports, and comprehensive procedures for approving construction change orders.

The purpose of this section is to bring closure to the CIP project funding process by establishing procedures for accounting for completed projects.

Goals

- Provide consistency in accounting for completed CIP projects.
- Improve financial reporting on the status of CIP projects and related effects on the City's fiscal condition.
- Assure timely and consistent filing of notices of completion for construction projects.
- Identify responsibility for approving the use of budget balances from completed projects.

Procedures

Filing of the Notice of Completion for Construction Projects (CIP)

Upon completion of construction project work specified in the contract, the City Engineer will forward to the Development Services Director the Notice of Completion for signature. The Notice will then be filed with the County of San Diego within 10 days of the last day of work on the project to begin the formal notice for liens against the project for materials and labor.

Reporting on Completed Projects

Upon completion of each project, the managing department is responsible for preparing a City Manager Report summarizing its final status. Generally, reports are only required upon the completion of the construction phase, and should encompass all phases of the project. However, if the project is not expected to go beyond the study, design or acquisition phase, the report should be prepared upon completion of the furthest phase. Reports should:

- Briefly summarize the purpose of project.
- Discuss any unusual circumstances or difficulties in completing the project, and recommend corrective action for the future, if appropriate.
- Compare estimated and actual completion dates.
- Compare the project budget with actual costs. This comparison should provide sufficient detail to meaningfully summarize key expenditure areas and project phases.
- Summarize the status of any outside funding sources such as grants, loans, donations or developer agreements.
- Identify any outstanding encumbrance balances that should be closed once final contract payments are made.
- Request authorization for a budget amendment request transferring any remaining budget balances to or from the fund's completed or master project account.

Processing of the budget amendment request will follow upon completion of the claim period for construction projects.

Note: This account is established in each fund in order to account for net budget balances resulting from completed projects. This balance is available to fund new projects or offset shortfalls in existing projects, subject to City Council or City Manager approval as discussed below.

Roles and Responsibilities

- **City Council**. Approval by the City Council is required for all transfers from the completed projects account for any new projects as well as for any existing project when the transfer amount exceeds the City Manager's purchasing authority.
- City Manager. The City Manager is authorized to make transfers to and from the master project
 or completed projects account for existing CIP projects. The City Manager's authority to transfer
 balances from this account is limited to amounts otherwise within his or her purchasing authority.
- **Public Works Department**. Public Works is responsible for ensuring that notices of completion for construction projects are appropriately filed.
- **Finance Department**. The Finance Division is responsible for reviewing completed project reports for fiscal accuracy; processing the approved budget amendment request and ensuring that project budget balances on the next monthly financial report will be zero; reducing encumbrances as recommended by the managing department and ensuring that encumbrance balances will be zero

- after any final project contract payments are made; and ensuring that projects completed by the end of the fiscal year are not carried over into the next fiscal year.
- **Operating Departments**. Upon completion of a CIP project assigned to them, operating departments are responsible for completing timely and accurate City Manager Reports summarizing the project's final status as discussed above

City Staffing Plan

Authorized Positions by Department

¹ Council's count is by position, rather then FTE.

² Contracted position(s).

³ Emotional Support Animal (ESA) is fully funded by employees' donations at City Hall. No city monies are used in the support of the ESA.

 $^{^{\}rm 4}~$ Full-time position shared between Finance and Development Services Departments.

⁵ FTEs from Heartland Fire and Rescue shared among Cities of El Cajon, La Mesa and Lemon Grove. Lemon Grove's share is approx. 14%.

⁶ FTE for Fire suppression employees is 2,912 hours and other employees is 1,872 hours, except for Council.

RESOLUTION NO. 2025 - 4117

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LEMON GROVE, CALIFORNIA, APPROVING A SALARY PLAN AND CLASSIFICATION SUMMARY

WHEREAS, on July 1, 2025, the City Council adopted a resolution approving the City Budget for Fiscal Year 2025-26; and

WHEREAS, the Salary Plan identifies the salary ranges for each position and the Classification Summary identifies the positions included in the budget, as well as the number of employees per position; and

WHEREAS, the City Council finds it in the public interest to approve the attached Salary Plan and Classification summary.

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Lemon Grove, California, hereby approves the Fiscal Year 2025-26 Salary Plan and Classification Summary (Attachment C).

PASSED AND ADOPTED on June 17, 2025, the City Council of the City of Lemon Grove, California, adopted Resolution No. 2025 - 4117, passed by the following vote:

AYES: Al Jamirano, Farai, Heredia, Mendoza, Snow

NOES: Sone

ABSENT: PONC

ABSTAIN: Done

Alysson Snow, Mayor

Attest:

Joel G. Pablo, City Clerk

Approved as to Form:

Kristen Steinke, City Attorney

² Contracted

^{*} One ESA in City Manager's Office. In FY2024-25, one was in Fire Department.

RESOLUTION NO. 2025 - 4118

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LEMON GROVE, CALIFORNIA, ESTABLISHING THE APPROPRIATIONS LIMIT FOR FISCAL YEAR 2025-26

WHEREAS, Constitutional Article XIII-B (Propositions 4 and 111) places an appropriations limitation on State and Local Government; and

WHEREAS, this appropriations limitation is based on proceeds of taxes adjusted annually from the base year 1986-1987 by either the population growth factor for the City of Lemon Grove or for the County of San Diego, and by either the change in the California Per Capita Personal Income or the change in Non-Residential Construction for the City of Lemon Grove; and

WHEREAS, the City has received inflation and population data from the State Department of Finance to calculate the Fiscal Year 2025-26 Appropriations Limit; and

WHEREAS, the City Council of the City of Lemon Grove wishes to select those options providing the greatest rate of change as shown below:

		T-t-1 Factor
Per Capita Personal Income Change	Population Change	Total Factor
(inflation factor)	(population factor)	
1.0644	1.0093	1.0743

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Lemon Grove, California, hereby establishes the Fiscal Year 2025-26 Appropriations Limit at \$72,006,929.

Glossary of Terms

ACCOUNTABILITY: The state of being obliged to explain actions to justify what was done. Accountability requires justification for the raising of public funds and the purposes for which they are used.

ACTIVITY: A group of elated functions performed by one or more organizational units for the purpose of satisfying a need for which the city is responsible.

AD VALOREM TAX: A tax based on the assessed value of an item, such as real estate.

ALLOCATION: Assigning one or more items of cost or revenue to one or more segments of an organization according to benefits received, responsibilities, or other logical measures of use.

ANALYSIS: A process that separates the whole into its parts to determine their nature, proportion, function, and relationship.

ANNUALIZED COSTS: Operating costs incurred at annual rates for a portion of the prior fiscal year that must be incurred at similar rates for the entire 12 months of the succeeding fiscal year.

APPROPRIATION: An authorization granted by the Mayor and Council to make expenditures and to incur obligations for purposes specified in the appropriation resolution.

ASSESSED VALUATION: A valuation set upon real estate or other property by the county assessor and the state as a basis for levying taxes.

BOND: A written promise to pay a specified sum of money (called the face value or principal amount) at a specified date or dates in the future (called the maturity date), together with periodic interest at a specific rate.

BOND FUNDS: Funds used for the purchase or construction of major capital facilities, which are not financed by other funds. The use of bond funds is limited to ensure that bond proceeds are spent only in the amounts and for the purposes authorized.

BOND PROCEEDS: Funds derived from the sale of bonds for the purpose of constructing major capital facilities.

BUDGET: A financial plan consisting of an estimate of proposed expenditures and their purposes for a given period and the proposed means of financing them.

CAPITAL BUDGET: A financial plan of proposed capital expenditures and the means of financing them.

CAPITAL CARRYFORWARD: Capital funds unspent and brought forward from prior years.

CAPITAL EXPENDITURE: Funds used to acquire, upgrade, and maintain physical assets such as property, plants, buildings, technology, or equipment.

CAPITAL IMPROVEMENT PROGRAM (CIP): A plan separate from the annual budget that identifies:

- (1) All capital improvements which are proposed to be undertaken during a five fiscal year period,
- (2) The cost estimate for each improvement,
- (3) The method of financing each improvement, and
- (4) The planned implementation schedule for each project.

CAPITAL PROJECT: Any project having assets of significant value and a useful life of six years or more. Capital projects include the purchase of land, design, engineering, and construction of buildings and infrastructure items such as streets, bridges, drainage, street lighting, water system, etc. Capital improvements are permanent attachments intended to remain on the land. Capital projects may include the acquisition of heavy equipment and machinery or specialized vehicles using capital funding sources.

ANNUAL COMPREHENSIVE FINANCIAL REPORT (ACFR): Financial report that contains, at a minimum, three sections that include an:

- (1) Introductory,
- (2) Financial, which provides information on each individual fund and component unit, and
- (3) Statistical.

COVID-19 PANDEMIC: The COVID-19 pandemic, also known as the coronavirus pandemic, is an ongoing pandemic of coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).

CUSTOMER: The recipient of a product or service provided by the city. Internal customers are city departments, employees, or officials who receive products or services provided by other city departments. External customers are citizens, neighborhoods, community organizations, businesses, or other public entities who receive products or services provided by a city department.

DEBT SERVICE: The amount required to retire the principal and pay the interest on outstanding debt.

ECONOMIC INDICATORS: A piece of economic data, usually of macroeconomic scale, that is used by analysts to interpret current or future investment possibilities. These indicators also help to judge the overall health of an economy.

ENCUMBRANCES: Obligations in the form of purchase orders, contracts, or other commitments that are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when the obligations are paid or otherwise extinguished.

ENTERPRISE FUND: An accounting entity established to account for the acquisition, operation, and maintenance of governmental facilities and services which are entirely or predominantly self-supporting.

EQUIPMENT: An item of machinery or furniture having a unit cost of less than \$5,000 and an estimated useful life of more than one year. Heavy equipment and machinery that are capital improvement related are included in the capital budget and are not considered equipment items in the operating budget.

EXPENDITURE: Any authorization made for the payment or disbursing of funds during the fiscal year.

FEDERAL ECONOMIC STIMULUS: Federal grant funding provided through the 2009 American Recovery and Reinvestment Act in order to create jobs and stimulate the local economy.

FIDUCIARY FUNDS: Funds used to report assets held in a trustee capacity and therefore cannot be used to support the city's programs. The Successor Agency fund is a fiduciary fund.

FISCAL YEAR (FY): A 12-month period of time to which the annual budget applies and at the end of which a governmental unit determines its financial position and the results of its operations. The City of Lemon Grove's fiscal year is from July 1st through June 30th.

FULL-TIME EQUIVALENT (FTE) POSITION: A full-time position or part-time position converted to a decimal equivalent of a full-time equivalent position, based on 1872 hours per year. For example, a maintenance worker working part time for twelve months, or 936 hours, would be equivalent to 0.50 of a full-time equivalent position.

FUND: An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other resources, together with all related liabilities, for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations.

FUND BALANCE: The difference between assets and liabilities reported in a governmental fund.

GENERAL FUND: A fund used to account for all general transactions of the city that do not require a special type of fund.

INTER FUND TRANSFERS: Transactions between city organizations or funds that would be treated as revenues or expenditures if they involved parties external to the city. Transactions may be charged against other organizations or funds.

INTERNAL SERVICE FUNDS: Funds used to report any activity that provides goods or services to other funds, departments, or agencies of the primary government on a cost-reimbursement basis. The goal of an internal service fund is to measure the full cost of providing goods or services for the purpose of fully recovering that cost through fees or charges. The Risk Management Fund is such a fund; departments are assessed charges to fund the city's self-insurance expenses.

LIMITED PROPERTY VALUE: A valuation set upon real estate or other property by the county assessor and the state as a basis for levying taxes. This single valuation will be used for taxation of both primary and secondary property taxes beginning with tax year 2015.

ONE-TIME REVENUE: Refers to a revenue source that is available for only a single time and is not a normal source of revenue.

OPERATING BUDGET: A financial plan which applies to all proposed expenditures other than for capital improvements.

OPERATING FUNDS: Resources derived from recurring revenue sources used to finance operating expenditures and pay-as-you-go capital expenditures.

ORGANIZATION: The smallest unit of budgetary accountability and control which encompasses specific and distinguishable lines of work performed for the purpose of accomplishing a function for which the city is responsible.

OTHER COSTS: This classification of costs includes contributions to outside agencies, specific federal fund expenditures, and miscellaneous expenditures.

OUTSIDE AGENCIES: Non-profit organizations whose activities support the Mayor and Council's priorities.

pCARD: A charge card that allows goods and services to be procured without using a traditional procurement process. A pCARD is also known as a procurement card.

PANDEMIC: (of a disease) prevalent over a whole country or world

PRIMARY PROPERTY TAXES: All ad valorem taxes, except the secondary property taxes, which can be used for any lawful purpose.

PROGRAMS: Desired output-oriented accomplishments which can be measured and achieved within a given timeframe. Achievement of the programs advance the activity and organization toward fulfillment of a corresponding need.

PROJECTS: Unique assignments having a finite time span and a deliverable; normally associated with capital improvements such as roadways, neighborhood facilities, etc.

RECURRING REVENUES: Revenue sources available on a continuing basis to support operating and capital budgetary needs.

RESTRICTED REVENUES: Revenues which are legally restricted for a specific purpose by the federal, state, or local governments.

REVENUES: Income from taxes and other sources during the fiscal year.

SALARIES and BENEFITS: The costs of compensating employees of the City of Lemon Grove, including salaries and employee benefit costs, such as health, dental, vision, long-term disability, and life insurances; city contributions for retirement; and workers' compensation insurance.

SECONDARY PROPERTY TAXES: Ad valorem taxes or special property assessments used to pay the principal, interest, and redemption charges on any bonded indebtedness or other lawful long-term obligation issued or incurred for a specific purpose by a municipality, county, or taxing district; and assessments levied by or for assessment districts and for limited purpose districts other than school districts and community colleges pursuant to an election to temporarily exceed (up to one year) budget, expenditure, or tax limitations.

SECONDARY TAX RATE: The rate per one hundred dollars of assessed value employed in the levy of secondary property taxes. The assessed value derived from the current Limited Property Value is the basis for computing taxes for budget overrides, bonds, and for sanitary, fire, and other special districts.

SERVICES: Costs which involve the performance of a specific service by an outside organization or other city organization. Examples of services include consultants, utilities, and vehicle maintenance.

SPECIAL ASSESSMENTS: Compulsory levy made against certain properties to defray all or part of the cost of a specific capital improvement or service deemed to benefit primarily those properties.

SUPPLIES: Expendable items used by operating departments. Examples include office supplies, repair and replacement parts for equipment, books, and gasoline.

TAX LEVY: The total amount to be raised by general property taxes for the purposes specified.

TAX RATE: The amount of tax levied for each one hundred dollars of assessed valuation.

TRANSACTIONS AND USE TAX: The Transactions and Use Tax (TUT) is the City's Measure T add-on 1% or 1 cent sales tax approved by the voters in the November 2024 General Election.

TRANSIENT OCCUPANCY TAX: The transient occupancy tax (TOT) is a tax on a temporary occupancy of a place of lodging (hotel, Air BNB, etc.) located in the legal boundaries of the City.
