

Keeping Lemon Grove Clean, Safe and Well-Maintained

The City of Lemon Grove maintains 70 miles of streets, 25 miles of storm drains and 14 acres of community parks and playfields. Aging streets, sidewalks and 50-year-old underground storm drain pipes that carry rainwater are starting to fail, creating sinkholes and flooding that can damage streets and property. Needed repairs are currently estimated at \$171 million. The longer we wait to fix this problem, the more expensive it will become.

Proposed Local Funding Measure

Lemon Grove's City Council is considering a ballot measure to add a one-cent sales tax, providing \$5.9 million annually, for these repairs and other essential City services, including:

-  Fix potholes and maintain streets
-  Keep local parks, sports fields, playgrounds, and community facilities safe, clean and well-maintained
-  Improve roads, intersections, bike lanes, and signals to improve traffic safety and reduce congestion
-  Repair aging infrastructure, including storm drains, bridges, sidewalks, curbs and public facilities
-  Keep trash and pollution out of our local creeks and waterways
-  Provide fire protection and paramedic services, and quick response to 9-1-1 emergencies
-  Help address homelessness

Local Control and Fiscal Accountability

- ✓ A clear system of accountability, including citizen oversight, independent audits and public disclosure of how all funds are spent.
- ✓ Every dime raised by the measure will be reinvested back into Lemon Grove to fund essential services.
- ✓ By law, the money can't be taken away by the State or County.
